Inaugural Address

1895.

Hon. WILLIAM A. HODGES, Mayor.

Mayor's Address.

GENTLEMEN OF THE CITY COUNCIL :

The opening of the new municipal year brings to us more vividly than at any other time a realizing sense of the responsibilities imposed upon us by our fellow-citizens. Profiting by the experience of the six years during which Quincy has been a city, we must strive to reach a plane of intelligent, high-minded and unselfish administration of the city's affairs that will not only meet the approval of the men of to-day, but will merit the commendation of the men of succeeding years. If, after mature and conscientious reflection, we are agreed that a certain line of policy, whether of expenditure or of retrenchment, is best and for the city's best interest, it should be adopted even though for the time being we are subjected to criticism.

THE CITY'S FINANCES.

During the year last passed Quincy has had a new experience in its financial affairs. The executive and legislative branches of the City Government have agreed with the mass of citizens that economy must be practised as well as preached. During the first five years as a city the debt increased year by year from nothing to a sum equal to almost ninety per cent. of the debt limit allowed by law. It became perfectly plain that we were not cutting our garment to suit our cloth. We realized that we were yielding too willingly to the wishes of men who always had schemes for spending but never had plans for saving.

How the debt ran up is shown by the following table of figures taken from the annual reports of the City Auditor :—

Dec. 31, 1889,		\$168,811.79		
Dec. 31, 1890,		191,200.39	Increase	13 %
Dec. 31, 1891,		262,386.89	Increase	37 %
Dec. 31, 1892.	{ General \$288,542.36 Water 35,000.00	323,452.36	{ Inc. General 9 % Inc. Total 23 %	
Dec. 31, 1893	{ General \$339,730.00 Water 714,000.00 Play Gr'nds 50,000.00	1,103,730.00	{ Inc. General 17 % Inc. Total, 241 %	
Dec. 1, 1894,	{ General \$311,091.00 Water 705,000.00 Play Gr'nds 49,000.00	1,065,091.00	{ Dec. General 9 % Dec. Total 3½ %	

The taking on of the Water Plant in 1893 made a tremendous increase in the total indebtedness of the city. The above table shows the increase of the general debt, excluding the water debt, and of the total debt year by year until 1894; also the decrease of the general and total debt in 1894. The increase by years was: In 1890, 13%; in 1891, 37%; in 1892, general, 9%, total 23%; in 1893, general, 17%, total 241%. The decrease in 1894 was, general 9%, total 3½%.

The debt of the city on January 1st, 1895 stated under three heads, General Debt, Water Debt and Play Grounds Debt is as follows:

GENERAL DEBT.

	Total.	Falling due this Year.	
Washington Street,	\$6,000.	\$2,000.	Jan. 1.
Stone Crushing Plant,	4,400.	1,100.	Feb. 15.
Water Street Land Damage,	1,271.	1,271.	Apr. 16.
Hancock Street,	24,000.	4,000.	May 1.
Common Street,	7,200.	1,200.	June 1.
Hancock Street,	9,000.	1,000.	June 1.
High School Furniture,	1,500.		
Canal Street Culvert,	900.		
Water Carts,	820.		
Atlantic Avenue,	500.		
Ward 2 Hose House,	4,500.		
Squantum Causeway,	5,000.		
Ward 4 Hose House,	6,500.		

Neponset Bridge,	10,000.	2,000.	July 1.
Wollaston School,	5,000.	1,000.	July 1.
Willard School,	2,000.	2,000.	Aug. 1.
Hose and Ladder,	700.		
Small Pox House,	300.	300.	Aug. 24.
Land Willard School,	7,900.	1,580.	Sept. 1.
Adams Street,	6,000.	1,000.	Oct. 2.
Willard School,	38,500.	7,700.	Nov. 1.
High School Furniture,	2,500.		
Liberty Street,	3,500.		
Willard Street Wall,	400.		
Hot Water Heater, Library,	800.

Copeland Street,	300.	300.	Dec. 18.
School House Lot, Norfolk Downs,	3,600.		
School House Lot, West Quincy,	3,000.		
	<hr/>	<hr/>	
	\$311,091.	\$52,451.	

WATER DEBT.

Originally.

600,000	Purchase Bonds,	\$580,000.	\$20,000.	Aug. 1.
30,000	Extension of Mains,	29,000.	1,000.	Sept. 1.
24,000	Extension of Mains,	23,000.	1,000.	Dec. 1.
45,000	Extension of Mains,	43,000.	2,000.	Dec. 1.
30,000	Extension of Mains,	30,000.	1,000.	Sept. 1.
		<hr/>	<hr/>	
		\$705,000.	\$25,000.	

PLAY GROUNDS DEBT.

Purchase Bonds	\$49,000.	\$1,000.	Oct. 1.
----------------	-----------	----------	---------

RECAPITULATION.

General Debt,	\$311,091
Water Debt,	705,000
Play Grounds Debt,	49,000
	<hr/>
	\$1,065,091

The City's valuation in the past three years is as follows:

	Total Valuation.	Abatements.	Net Valuation.
1892,	\$15,566,920	\$164,628	\$15,402,292
1893.	16,638,070	209,852	16,428,218
1894,	16,817,455	125,077	16,692,378
			<hr/>
			\$48,522,888
Average Valuation for three years.			\$16,174,296

The law allows us :

First,—To assess \$12 per \$1,000 after assessors' valuation for the preceding year less all abatements ; or

Second,—To assess \$12 per \$1,000 on the average of the assessors' valuation for the preceding three years.

We can raise in the year 1895 under the first scheme, \$200,308 ; under the second scheme, \$194,088.

Our limit for general municipal indebtedness is $2\frac{1}{2}\%$ on \$16,174,296, viz. : \$404,357.40.

THE ASSESSMENT OF TAXES.

It is to be regretted that the tax rate for the year 1894 could not be lower. A high tax rate clogs the prosperity of the city. But it could not have been avoided honestly or with regard for any proper system of municipal financiering. The running expenses must be provided for and the city debt must be met as it matures. The amount of property both personal and real removed from taxation was large. The land taken from Quincy for the Park Reservation, the play grounds, and the site for the High Schoolhouse made quite a large sum. Moreover, about \$350,000 of personal property, was taken from the valuation of the previous year, by wealthy citizens removing from the city. These losses, with the large amount of debts falling due in 1894, made the high tax rate imperative.

STREET LIGHTING.

The subject of street lighting should be looked into with a view of obtaining better service on a more economical basis, as no doubt more lights will be demanded. The Council of 1894 passed an order requesting the Mayor to petition the Legislature to authorize the city of Quincy to establish a plant to furnish its own lights. The request will be carried out at the proper time.

POOR DEPARTMENT.

The affairs of the Poor Department have been administered with such economy as has been consistent with the rendering of necessary aid to those who have been so unfortunate as to be compelled to apply for it.

As we all know, the number of those has been somewhat increased by the enforced idleness of many of our working men, but, with the wise co-operation of the other city departments employing labor, many men have been given an opportunity to support themselves and their families, when otherwise they would have become paupers.

The income of the Johnson fund was distributed as usual, at Thanksgiving, among the worthy poor. The increased number of applications, more than could be met leads me to suggest that the fund, which is now deposited in the Savings Bank might be safely invested so as to yield a somewhat larger income, and thus to a further extent comply with the intention of the donor.

FIRE DEPARTMENT.

During the past year an extensive re-organization of the fire department took place. The result has justified the effort made to give a better service for the prevention and extinguishing of fires to the citizens, as attested by the very general approval by the community of the working of the department. New hose houses have been built at Quincy Point and in West Quincy, and answer the needs of the department in those sections of the city.

WATER DEPARTMENT.

The water service of the city must be extended. An additional supply is requisite for the demands and needs of the citizens generally, and of the city for fire purposes. A carefully matured plan for an additional supply has been prepared and has been submitted to and is now before the State Board of Health for its approval.

POLICE DEPARTMENT.

The police force of the city under its efficient Chief has done good work during the past year and has merited the commendation of the citizens.

DEPARTMENT OF PUBLIC WORKS.

Under the supervision of this department many important improvements, alterations and repairs have been made upon the streets and other property of the city coming under the care of this department. The work has been done as well and as economically as could be expected with the amount of money at the disposal of the department. I see no reason for changing the opinion expressed by me in my inaugural of last year in relation to having public work done by the day and not under contract. No new arguments need to be presented upon this point. A city of the size of Quincy is not so large but that all of its public work can be done under the immediate supervision and direction of its own public officers. I beg to call your attention to the two hose houses built in the city during the past year to substantiate the opinion above expressed.

THE WOODWARD SCHOOL.

During the past year the school established under the will of the late Ebenezer Woodward has been opened. A building has been constructed which meets fairly well the present requirements of the school in giving to such girls of Quincy as are entitled under the will to get their education at this school. It is to be hoped that for some time to come no attempt will be

made to very greatly increase the capacity of the school building at the expense of the fund. The wisest course is not to deplete the remaining fund by making any costly permanent improvements, but to use the income to give to so many girls as the present school can hold, thorough and complete education in order to carry out fully the intention of the founder of the school.

PUBLIC SCHOOLS.

No more serious question confronts us than a proper and wise management of our public schools. A large amount of the money appropriated by the city in the year is spent on public education, and in no one expenditure is so much interest taken by the citizens at large as in that for the benefit of the schools. Appropriations have been made during the past year for land for the building of two new schoolhouses: one site is at Norfolk Downs, and the other at West Quincy. The overflowing condition of the existing schools has necessitated the purchase of these lots and the immediate construction of schoolhouses thereon.

While I am prepared to approve, generally, our public schools and the conscientious conduct thereof by our school authorities, yet I am bound to call the attention of the citizens to one underlying cause of complaint, which, in the minds of many men, is a serious drawback to the efficiency of the schools. I refer to the general diffusedness which seems to prevail in the education of our public school children. They seem to scatter their energies in so many different directions that the net result, viz.: a solid, substantial, simple and well-grounded education, seems not to be attained. I am free to admit that our school authorities are by no means wholly to blame for this state of affairs. The legislation of the Commonwealth is such as to encourage to a most unnecessary extent the teaching of many subjects in the public schools. It will surprise most citizens to know that in the public schools of the grammar grade the law declares that eleven subjects must be taught, and that in addition six other subjects may be taught at the discretion of the

school committee. That, in addition to the seventeen subjects taught in the grammar schools ten other subjects must be taught in the high schools. Furthermore, that in addition to the twenty-seven subjects already cited, teachers in the high school must be competent to give instruction, in a city of the size of Quincy, in eight more subjects. It is not my purpose to suggest that the school committee should disregard the law, but it is my duty to call their attention to this condition of legislation and to urge upon them to concentrate to the greatest extent possible, the teaching of these various subjects so as to give our children the sound and fundamental education which our people expect.

LAW DEPARTMENT.

During the past year action has been begun against the bondsmen of the contractor who undertook the building of the Willard School. The breach of contract occurred something over three years ago, but until this year, no definite legal proceedings have been taken against the contractor or his bondsmen to recover the damages justly due to the city for the breach of contract.

SEWERAGE.

I referred to the subject of sewerage in my inaugural message of last year, and though at the time acknowledging its claims to our early consideration, I did not then advise action, because of the poor financial condition of the city. In that respect we are somewhat better off this year than last; yet it is apparent to us that even now the subject must be very carefully handled in order to avoid an unwieldy debt and an excessive tax rate.

It is my belief that the taxpayers and citizens of Quincy are ready and anxious that immediate steps be taken looking to the adoption of some system of sewerage which will give relief and benefit to all parts of the city. The free use of the public water supply by a large population, compels the adoption of a sewerage system. The one goes hand in glove with the other. Our population is estimated by the State Board of Health to be

over twenty thousand, and a large proportion of our inhabitants,—the number constantly increasing,—are supplied with, and freely use, city water. After use, this water becomes tainted, and goes to greatly swell the bulk of our sewage matter. Even in the thickly settled districts of our city, no provision is made for the disposition of this large volume of objectionable matter, other than by turning it off into cesspools.

Though I do not attribute the recent prevalence of diphtheria to our lack of sewerage facilities, yet I believe that such a condition of affairs as exists here, has made the extermination of the disease by the doctors and Board of Health more difficult to accomplish. There is, however, a widespread public sentiment, not only here, but everywhere, that the primary existence of infectious diseases, is largely occasioned by poor sewerage. Many persons who would otherwise make this city their home may be deterred from coming here to build because of the poor facilities afforded for the disposition of sewage.

I have given this subject careful consideration of late. Now is the time to go to work in earnest. A sewerage system for Quincy is no longer to be classed as a luxury, but as a necessity, and I strongly advise this Council to give the subject immediate attention.

* * * *

The reports of the various departments of the city for the past year will be made to the Council in due time, and I refer to them to show in detail the work of each department.

City Treasurer's Report,
December 31, 1894.

With Certificate of City Auditor Attached.

Treasurer's Report.

CITY TREASURER'S OFFICE, }
January 25, 1895. }

To His Honor, The Mayor:—

I have the honor to submit the following report of the receipts and expenditures of the City of Quincy for the fiscal year ending December 31, 1894.

RECEIPTS.

Report of Commissioner of Public Works.

To the Honorable Wm. A. Hodges, Mayor of Quincy.

SIR:—I have the honor to submit my first annual Report of the Department of Public Works, containing a brief account of the principal work performed in my department during the past year.

STREETS.

The appropriation for this important department was only \$14,000, which sum is comparatively small when it is taken into consideration the number of miles of streets to be cared for, repairing carts of all kinds, maintenance of horses, purchase of tools, gravel and pay of men, leaves but a small proportion to be expended upon our highways. Still, one can readily see the many improvements that have been made. One of the most important recommendations that I would make would be to pave that portion of Hancock Street from its junction with Adams Street to the Neponset Bridge, to correspond with that part of the street already paved. As this is one of our main thoroughfares, I think it advisable to commence this work at an early date.

WALKER STREET.

This was a special appropriation of \$1500, including land damages and regrading a portion of Walker Street, but owing to the illegality of the order it was thought advisable not to proceed with the work as it might involve the City in a lawsuit.

LIBERTY STREET.

In the latter part of November, \$3500 was appropriated for regrading and rebuilding Liberty Street. Work was immediately commenced and a portion of the street was rebuilt with crushed stone, but owing to the lateness of the year, all work was suspended until spring.

ADAMS STREET.

Adams Street has been rebuilt as far as Whitwell Street, yet there still remains a portion that should be rebuilt and that immediately. It was recommended by the former Commissioner of Public Works, and if continued as far as Furnace Brook, we shall have one of the best streets for driving from Quincy Centre to Franklin Park in this vicinity. I also recommend that the Council take immediate action and appropriate a sum sufficient to put this part of the street in better condition.

SQUANTUM CAUSEWAY.

The Council appropriated \$5,000 for improving the Squantum Causeway by filling same to an average depth of eighteen inches, putting the fences in good order and to replank the sides. The street and fences were in a very poor condition. They have been put in good order and should with the remainder of the money last for several years.

SIDEWALKS.

Many applications were received from all parts of the City

for sidewalks where the abutters pay one-half the expense, but the sum of \$1000 was much too small to meet the requirements of the citizens, as they are beginning to realize this much needed necessity and readily see that a sidewalk cannot be properly maintained without edgestones.

An order was passed by the Council of 1893, authorizing an expenditure of \$1000, or so much as was necessary to construct a sidewalk with edgestones on Beale Street, charging one-half the expense to the abutters. This work has accordingly been performed.

STREET LIGHTING.

There is some question as to the best method of lighting our streets. We have 71 gas, 108 oil, 96 arc and 161 incandescent lights; and the result is not always satisfactory. Most of the trouble is with the incandescent lights. In my judgment the arc lights give the best satisfaction and are much more preferable than the incandescent lights.

GARBAGE.

The garbage has been collected as in past years, with increasing demands for the removal of ashes and rubbish. One team and two men are constantly employed to perform this work, but they are unable to cover all portions of the city. The garbage is disposed of daily and the money is paid to the Treasurer.

STREET WATERING.

This is the third year that our streets have been watered under the provisions of Section 4 of Chapter 179 of the Acts of the General Court of Massachusetts of the year 1891, assessing

one-half the expense upon the abutters. The sum of \$3300 was appropriated to water the following streets :—

Washington Street.

Adams St. from Hancock St. to Whitwell St.

Chestnut St. from Hancock St. to Foster St.

Temple St.

Granite St. from Hancock St. to Quarry St.

Hancock St. from School St. to Neponset Bridge.

School St. from Hancock St. to Franklin St.

Franklin St. from School St. to Independence Ave.

Crescent St.

Copeland St. from Brewers Cor. to Willard St.

In addition to this, \$400 was appropriated to water Willard street from the West Quincy Depot to the Milton line; \$300 for Water St. from Franklin St. to Copeland St.; \$50 for Foster St. from Chestnut St. to Washington St.; and \$60 for Newport Ave. between Beale St. and Brook St. The above streets were watered from April 30th, to November 3rd. Two new watering carts were purchased. I would recommend that all streets that are to be watered should be included in one order, so as to have but one rate of taxation.

BRIDGES, CULVERTS AND DRAINS.

Careful attention has been given to bridges, culverts and drains. Neponset bridge was replanked in the early spring with the best of material, the work being done by the day, at a considerable saving to the City in comparison with former years by contract work.

The culvert on Canal street was enlarged and rebuilt the full width of the street. Considering the quality of the work done, the amount expended was quite small. To complete the artistic effect, Messrs. Fegan & Ballou, who furnished the stone for the work, presented the city with a suitably inscribed polished tablet, which was placed in position.

The drains and culverts throughout the city have received their proper attention.

HOSE HOUSE.

New hose houses have been erected in Wards Two and Four, the work being performed by the day and in a very thorough manner. The buildings are very convenient and meet the requirements of the Fire Department.

The plans and specifications were so incomplete that they were revised by the executive department, by orders of the City Council.

NEW HIGH SCHOOL.

The foundation for building a new brick High School on Hancock Street was commenced in December of 1893. The plans and specifications were found to be incomplete, and changes and alterations were deemed necessary which added to the original cost of the building, but still we were able with judicious management to keep within the appropriation.

The building is convenient and is one of the finest school-houses in the State.

It was dedicated September 11th, 1894 with proper exercises, and was ready for occupancy.

Respectfully submitted,

WILLIAM N. EATON.

Commissioner of Public Works.

December 31st, 1894.

Report of the Assessors.

To His Honor, the Mayor of Quincy:

The Board of Assessors submit herewith their annual report. We have assessed upon the polls and estates of the City of Quincy for the year 1894, the following sums:—

City tax, (levy voted by the City Council)	\$175,000 00
City tax, (notes maturing during the year)	89,730 00
City tax (interest to be paid during the year)	15,000 00
County tax (less polls)	8,360 26
State tax (less polls)	6,540 00
Polls "5920"	11,840 00
Overlayings	1,356 94 $\frac{8}{10}$
Total	\$307,827 20 $\frac{8}{10}$
Number of polls	5,920
Gain	38

Omitted and re-assessed taxes are as follows:

On property	\$972 84
On polls, (160)	320 00
	\$1,292 84
Tax rate 1894	\$17.60 per \$1,000

TABLE OF AGGREGATES.

Below will be found the table of aggregates :

Value of assessed personal estate ex- cluding resident bank stock	\$2,520,500 00
Resident bank stock	208,780 00
Total personal estate valuation	<u>\$2,729,280 00</u>
Value of assessed real estate.	
Buildings	\$6,862,775 00
Land	7,225,400 00
Total real estate valuation	<u>\$14,088,175 00</u>
Total real and personal valuation	\$16,817,455 00
Gain	179,385 00

WARD VALUATION.

	PERSONAL ESTATE.	REAL ESTATE.	TOTAL.
Ward 1,	\$1,205,050 00	\$4,433,050 00	\$5,638,100 00
Ward 2,	309,925 00	1,539,700 00	1,849,625 00
Ward 3,	356,950 00	1,884,425 00	2,241,375 00
Ward 4,	340,925 00	1,892,875 00	2,233,800 00
Ward 5,	248,650 00	2,529,650 00	2,778,300 00
Ward 6,	59,000 00	1,808,475 00	1,867,475 00
Resident bank stock,	208,780 00		208,780 00
Total	<u>\$2,729,280</u>	<u>\$14,088,175 00</u>	<u>\$16,817,455 00</u>
Tax raised on personal estate			\$48,035 $32\frac{8}{10}$
Tax raised on real estate			247,951 88
Tax raised on polls			11,840 00
Total			<u>\$307,827 $20\frac{8}{10}$</u>
Number of houses			3,486 $\frac{1}{2}$
Gain			150

Thinking it will be of interest to the taxpayers of Quincy, we herewith give some figures in this department not generally known. The City tax levy voted by the City Council was \$175,000, as against \$160,000 the previous year, the notes maturing during the year was \$89,730 as against \$62,962 the previous year, the interest account was \$15,000, as against \$13,000 the previous year. The City lost the tax on \$351,975 of personal property this year, persons to whom it had been assessed having moved to other localities; the loss the previous year was the tax on \$180,000. The amount of exemption this year to widows and minor children has been the tax on \$42,550, this amount being about the same as the previous year. The amount of abatements that have been made this year, tax of 1893, \$410.22; for 1894, \$2,197.08. The abatements made the previous year were \$5,660.05. The amount of land taken from Quincy by the Commonwealth of Massachusetts for the park was 2,529½ acres, the assessed valuation of the same was \$75,875. The land taken for other parks by the City, the assessed valuation was \$19,900. The High School lot taken in 1894 was assessed for \$15,000. The amount of property held by Religious, Benevolent and Literary Associations, not taxable, is valued by the Assessors at \$832,895.

Respectfully submitted,

JOHN FEDERHEN, 3D.,

WATSON H. BRASEE, Collector.

Report of Poor Department.

Quincy, January 21, 1895.

To His Honor, the Mayor :

In submitting my report as Overseer of the Poor for the year 1894, I have departed from the custom of my predecessors in two respects ; a departure for which I am justified both by the reasons which will suggest themselves to you, and by the fact that in so doing I am in harmony with the almost universal practice followed by the Poor Departments of the several Cities of the Commonwealth.

In the first place I have not annexed to my report a detailed statement of those unfortunates persons who have been aided by me during the past year ; I cannot see that it would serve any useful good and any purpose except to gratify the idle curiosity of the general public. The records of this department have been kept in such a manner during the past year that a list of those who have been aided will be always open to any one who has reason to inspect the same.

In the second place I do not think it necessary to annex to this report anything more than a summary of my expenditures during the year, as the financial officers of the City, in their several reports, will give all the details that are necessary and on my part such would be superfluous.

The appropriation for this Department for the year 1894 was \$8000.00 ; Of that sum I have expended \$7471.73 ; although \$1376.93 of that amount is included in bills which although directly chargeable to 1894, yet were not approved by me in season to go into the City Treasurer's annual account.

Of this sum \$1937.90 was expended on account of the almshouse ; and \$5533.83 on account of the Outside Poor ; a summary of these accounts will be found in the schedule annexed to this report. In former years the income received from the State, other Cities and Towns and various sources has been included in the amount which the Poor Department had to expend, but this year, by the action of the City Council, I have had nothing to do with or accounting for such receipts and have therefore not included them in any way.

A new element has entered into our expense account for the reason that we have undertaken to collect from the State the board of such patients at the City Hospital who have had no settlement in Quincy or elsewhere in the State. This is a charge upon our appropriation which will ultimately be repaid by the State ; there are also some charges of like nature which will also be repaid by other Cities and Towns.

There has been, as I understand it, an almost unprecedented call for aid upon the Poor Departments of our various Cities because of the stagnation in business and a consequent large non-employment of men. I am thankful to say that in our City, I think that this reason has in very little part affected the work of this Department. Of course, to some extent the idleness of wage-earners has increased the number of those who have applied to me for aid, but I think that the aid so rendered has been very small in amount.

The Department of Public Works, the Water Department and the Board of Health have ever been ready and willing, within their power, to give employment to such as would otherwise have become paupers and would have required aid from the Overseer of the Poor.

Our almshouse has been managed in the past year judiciously, economically and with a due regard to the welfare of

the inmates, under the superintendence of Mr. Franklin Jacobs.

The inmates of the almshouse on January 1st, 1894 were 15

Admitted during the year 3

Total 18

Died 3

Discharged during the year 5

In almshouse December 31st 1894, 10

The number of Outside Poor relieved were as follows:

Number settled in Quincy 106

Number chargeable to other Cities and Towns 14

Number of State paupers 37

Number of paupers in insane asylum chargeable to Quincy 23

The calls for aid upon the Department since December 1, 1894, have been many and great, and there have been many notices from other Cities and Towns, and I would urge that at least the amount appropriated for 1894 be appropriated for 1895.

The condition of our almshouse also calls for some suggestions from me at this time. The house is clean, well warmed and well cared for and I have nothing but commendation for its administration under my present Superintendent, but there are things that need amendment.

There is now but one bath-room and water-closet for the use of all the inmates, and in my opinion there should be an additional bath-room and water-closet so that the males and females could each have one of such, and also the Superintendent and his family should have a separate bath-room and closet of their own.

I think also that the present system of lighting, that by kerosene lamps, is fraught with danger, not only to the building but to the inmates. I think that the use of electric lighting in the house, although involving considerable more expense, would further a very good purpose. I would therefore suggest that an appropriation, sufficient to carry out these suggestions, be made by the City Council.

The income of the Cotton Center Johnson Fund was distributed this year as usual, among the needy poor of this City, but it was not sufficient to accomplish the purpose of the donor. The Fund is now producing 4% and I would most earnestly suggest that it be so invested as to produce the largest income compatible with safety.

ZENAS S. ARNOLD,
Overseer of the Poor-

Report of Park Commissioners.

To His Honor, the Mayor of the City of Quincy :

The Board of Park Commissioners submit the following report :

\$500 was appropriated at the beginning of the year for the support of Parks and Playgrounds. Of this, \$197.70 has been spent, leaving \$302.30 to be turned into the treasury. There was also received from various sources \$111.50 which was carried into the general treasury fund. Appended, will be found financial report in detail.

But little work in the Parks has been attempted, except to cut out dead trees and underbrush and keep fences in repair. The City is fortunate in the possession of centrally located pleasure grounds, of such natural beauties, that but little expenditure of money will be required, for many years to come.

*No permanent improvements, like making roads and paths, should be attempted, until a comprehensive study of our whole Park and Playground system shall be made by a competent landscape architect. A plan which would connect, by boulevard, the Quincy system and the seashore, with the Blue Hill Metropolitan reservation, seems to your commissioners, a proper subject to lay before the Metropolitan Park Commissioners.

We would again call attention to the report of Mr. Elliot,

printed with the report of the Park Commissioners for the year 1892. Some steps should be taken now, either with or without the co-operation of the Metropolitan Park Commissioners, while the cost will be trifling, to secure the seashore front, from Squantum to Great Hill, also the borders of the water courses throughout the city.

PLAY GROUNDS.

WARD 5.

Your Commissioners have purchased about five acres, with rights of way thereto, on the summit of Forbes Hill, sometimes called Third Hill, for \$8,000. By agreement, \$3,000 of this sum was to be spent under direction of the Commissioners, in building suitable approaches to the ground. A good macadamized road, with easy grade, has been built from Adams street to the top of the hill, at a cost of \$2,504.77, leaving \$495.23 to improve the approach from the north side. The Commissioners believe that this play-ground will be found a very attractive resort. It affords views of sea and shore that are as fine as any on the Atlantic coast. The summit is sufficiently level for the purposes of a play-ground, while the easy walk or drive over the hill will be enjoyed by all our citizens.

WARD 6.

Your Commissioners were in doubt about the proper location for the play-ground in this ward. It seemed to them, that in future years, a location on the shore front would be found the most desirable. After two well-attended, public hearings, and much other investigation, they were convinced that quite a majority of the citizens and taxpayers, preferred a location on the square, near the Atlantic Station, formerly known as the "gravel-pit." They, therefore, have bought 112,041 ft. at a cost of \$8,403.08. The deed has been passed, recorded and filed with proper authorities.

WARD 2.

As stated in report for 1893, some eight acres on the shore at Point Holes, owned by Mrs. Tobey, Mrs. Haywood and Mrs. Waterhouse, were taken by process of eminent domain, and an award based on assessors' valuation for 1893 was made. A settlement has been made with Mrs. Tobey. The interests of Mrs. Haywood and Mrs. Waterhouse still remain unsettled.

Your Commissioners have made some small improvements in play-grounds in Wards 3, 4 & 6, by building back stops for ball playing, etc.

On motion of Councilman Waterhouse, a committee was appointed by the City Council, which made an alleged investigation of the purchase of play-grounds, and reported thereon. Your Commissioners think it proper to state that they had no opportunity to be heard by said committee, nor were they officially notified of the creation of the committee or its action.

Any report made, without getting such information as was in the hands of this Commission, is partial, incomplete and misleading. It is, at least, an innovation for a so-called investigating committee, to make a report without hearing the authorities controlling the subject matter to be investigated.

WM. B. RICE.

G. C. ADAMS.

FRED H. SMITH.

Park Commissioners.

Your Commissioners request that the sum of \$500, together with income from the Parks, be appropriated for maintaining Parks and Play-grounds in 1895.

Public Burial Places.

To His Honor, the Mayor of the City of Quincy:

The Managers of the Public Burial Places respectfully submit their sixth annual report.

HANCOCK STREET CEMETERY.

This old burial ground has received such care and attention as has been required to keep it in good condition. It is used for burials, only on exceptional occasions, but in common with all old country cemeteries, it is much visited, especially by strangers in the city.

MOUNT WOLLASTON CEMETERY.

This cemetery becomes every year more an attraction for all, and its reputation for good care and generally beautiful appearance is more widely known and appreciated by owners of lots, and their friends, and by visitors from other places, than is generally understood by the public.

Twenty-two lots have been sold in what is called the "Greenleaf Extension" the past year, and but very few lots remain unsold in the older part.

A large addition has been made the past year to the extension of City Water pipes, and soon, by these annual extensions,

the whole cemetery will be covered without extra appropriation therefor.

The old dilapidated fence on Valley street has been replaced by a new one, at an expense of about five hundred dollars, which can be met without an extra appropriation or addition to the City debt, from the uncollected earnings of this year—which are much more than sufficient—when the same shall be appropriated.

It has been the aim of your Board in this matter, and in the introduction of water, and all other improvements, to meet such outlays from the “income” and this can be done if appropriations are made, not to exceed the income, but allowing this Board to use so much of such income for improvements as may be found necessary.

The “Repair Fund” which now amounts to \$7,725 has finally been set apart as a special fund, and under the law of this State, has been deposited in the Quincy Savings Bank under authority and direction of a vote of this Board, the income to be used for the “perpetual care” of the lots named by those who make the deposit.

The Council appropriated \$4,400, of which \$1,000 is understood to be the annual appropriation for the Mount Wollaston Cemetery and \$100 for the Old Cemetery, and an estimated income of \$3,300. The income received and paid to the Treasurer is \$3,479.08.

The following is a detailed financial statement:—

Collected for unpaid bills for labor	
on lots for 1891	\$11 00
Collected for unpaid bills for labor	
on lots for 1892	13 50
Collected for unpaid bills for labor	
on lots for 1893	202 25
Collected for unpaid bills for labor	
on lots for 1894	880 90
Collected for lots sold in 1894 . .	2,000 00
<hr/>	
<i>Amount carried forward,</i> .	\$3,107 65.

<i>Amount brought forward,</i> . . .	\$3,107 65
Collected for single graves sold in 1894	85 00
Collected for hay sold in 1894	20 18
Collected for non-resident assess- ments in 1894	38 00
Collected for income of Repair Fund	223 25
Collected for old fence	5 00
	<hr/>
	\$3,479 08
City appropriation, as above set forth	\$1,100 00
	<hr/>
Total	\$4,579 08
Appropriation by the Council in full	\$4,400 00
	<hr/>
Amount received in excess of appro- priation	\$179 08
Amount of expenditures, \$4,374.57 as appears by the Auditor's report, being less than the appropriation	\$25 43

Respectfully submitted,

JOHN HALL, Chairman.

GEORGE L. GILL, Secretary.

Health Department.

To His Honor, Wm. A. Hodges, Mayor of Quincy:

The Board of Health respectfully present their annual report for the year ending Dec. 31st, 1894.

The Board soon after their appointment organized by the election of Benj. F. Curtis, Chairman ; Timothy F. Ford, Secretary and Dr. C. O. Young, Consulting Physician.

Mr. J. H. Cunningham was appointed inspector of the Board.

One of the first duties after organizing was to take up and discuss the Scavenger System of the city. We finally agreed that in one important particular it was wanting and needed additional regulations. While former Boards had adopted restrictions and rules in regard to it, they had failed to make any regulation regarding the prices to be charged, in consequence there had grown up a very severe tax on the property owners, for the labor performed. After considerable effort we were able to arrange a scale of prices with nearly all of the former scavengers at a reduction from former rates of nearly one-half, thus relieving the property owners of a great burden and at the same time doing no injustice to the men performing the work.

In May a small outbreak of small-pox at Hough's Neck threatened the health of the city. Immediately on notice of the same, the Board took prompt and effective measures to endeavor to stop the spread of the disease. The patient and those in-

fected, were at once quarantined in the house where the patient resided. In view of the great damage to the business interests of the locality, and the danger of infection to others, the Board unanimously agreed that the infected person should be removed.

As the City had no hospital or place where they could be safely taken, a small hospital was at once erected, furnished and fitted with everything necessary for their comfort, including city water, and in 60 hours from the starting of the building, the infected persons were safely housed in the hospital. Dr. McDonald a specialist from Boston was engaged to attend them and everything needful was done for their comfort and for the recovery of the patient, and after the usual time had elapsed they were all discharged in good health and no other case has occurred.

The building was carefully disinfected and cleaned and is ready for immediate occupancy, if any other case of the dread disease should occur. In this connection it may be well to say that in the beginning of the disease the Board took prompt measures to fix the residence and settlement of the patient and notified the City of Brockton at once of the fact, and by so doing every bill actually incurred for the attention and care of the patient was fixed, and later was paid by Brockton, the only expense falling on Quincy was the building of the small hospital, which we have now as an equivalent, and which, could not legally be charged to Brockton.

The public water courses of the City have received careful attention, and have been cleared of all obstructions to the free flow of the water.

At the mouth of Town Brook in the Canal so called, an accumulation of debris, filth, etc., the result of years of discharge has been removed, and a new channel for the free flow of the water has been dug to a point where it meets the incoming tide from the bay, and by so doing, a serious menace to the health of that section of the city has been removed.

In September and since then, there has been a large increase of diphtheria, this dread disease more fatal and more to be dreaded even than small-pox, coming when least expected and

from no known causes has afflicted the central portion of our City with greater or less intensity since its beginning.

As a partial relief to prevent the spread of the contagion, in connection with the advice of the School Committee it was thought best to close the Coddington and Adams schools, both of which buildings have been thoroughly and carefully disinfected and cleaned.

At the invitation of the Board the doctors of the city met them, and after a careful interchange of views, the Board have adopted some of the suggestions made and at this writing the City is practically free from the contagion. It may be well to record that in some of the later cases, the Anti-Toxine treatment has been tried, with the best of results and it is to be hoped that science has at last found a remedy, if not a preventive for this alarming disease.

In October, on the petition and request of citizens of Ward 5, the Board in connection with private individuals, contracted for and have had dug a new ditch and made an enlargement of an old water course from Green Pond, so called near the O. C. R. R. tracks in Wollaston to the Neponset River, by so doing to endeavor to drain the two swamps that have been so unsightly and a menace to the health of that section of the City. - Owing to the limited amount of money at our disposal the work has not been fully completed, but we are glad to say that the water level in the two swamps has been lowered about $2\frac{1}{2}$ feet, and a great relief has been obtained.

This brief review of the work of the Board may be concluded with this suggestion ; that if the health and sanitary condition of our City, which now is probably rising 20,000 population, and covering an area of about 15 square miles is to be well and carefully taken care of according to modern ways and methods, larger appropriations will have to be made.

The report of our inspector will be found attached, and by it will be seen that the minor details have been attended to.

The following table of all cases of disease reported to us by the physicians of the City with a list of all deaths in the City the past year will be of interest.

Membraneous Croup, 5.

Total, 38.

In September Dr. C. O. Young resigned his position on the Board, and the vacancy was filled in November by the appointment of Dr. J. H. Ash.

Extra duties have also devolved on the Board this year in carrying out the provisions of Chap. 477, Acts of 1893 and Chap. 455, Acts of 1894, relating to the inspection and regulations of plumbing. Under the provisions of the above Chapters the Board elected J. J. Keniley, Inspector, and J. P. Landers, Assistant Inspector, and herewith we submit their report.

BENJ. F. CURTIS,
JOHN H. ASH, M. D.,
TIMOTHY F. FORD,

Board of Health.

REPORT OF INSPECTOR OF PLUMBING.

Quincy, January 1st, 1895.

B. F. Curtis, Esq., Chairman Board of Health:

DEAR SIR:—I herewith tender you my first annual report as Inspector of Plumbing of the City of Quincy, for the year ending December 31st, 1894. Although the law did not take effect until May 9th, still the work attended to during this short time, has been considerable, and may be summarized as follows:

Number of new houses inspected	93
Number of new stores inspected	3
Number of new halls and churches	3
Number of alterations inspected	6
Number of old houses inspected	17
Total number of inspections	122

Representing an aggregate estimated value of \$22,800.

The work has all been performed with the strictest attention to the ordinances governing the same.

Our City is growing fast, and as the past year, with its thoroughly depressed state of business, cannot be taken as a fair sample on which to base any estimate, still the amount of work completed during this time, makes it very evident that the ques-

tion of sewerage must be considered by the City in the near future.

The efficacy and necessity of the ordinances relating to plumbing, are most thoroughly demonstrated by the fact that it has been the custom of non-resident plumbers to perform work in some sections of the City, more especially the northern part, Norfolk Downs and Wollaston Park, without paying the slightest attention to that most important of all questions, viz.; ventilation.

Our citizens can rely on the fact, that, hereafter no work will be accepted, or allowed to proceed, without a thoroughly practical test being made of the same.

Very respectfully yours,

J. J. KENILEY, Inspector of Plumbing.

REPORT OF INSPECTOR.

JAMES H. CUNNINGHAM, Inspector.

Report of Inspector of Milk.

Hon. William A. Hodges, Mayor :

DEAR SIR :—I have the honor to submit the following report :

Whole number of licenses issued	80
For the sale of milk	79
For the sale of oleomargarine	1
Of the licenses for the sale of milk there were issued to store- keepers and others	45
Dealers delivering from some con- veyance	34
I have returned to the city trea- surer receipts from this office	\$40 00

I have made numerous inspections and analyses and have found the milk in every case to be free from adulteration and generally of good quality.

No prosecutions have originated in this office. One licensee was complained of by the agent of the State Board and was *convicted* of selling milk which did not reach the legal standard. He has since relinquished the milk business. The penalty for exposing for sale milk not up to the legal standard

is so severe and its detection is so easy that *storekeepers* have little temptation to dishonesty in this regard.

Most of the milk furnished to the citizens of Quincy is produced in Quincy and the surrounding towns and I am of the opinion that it is as good as can reasonably be demanded.

Respectfully,

HENRY C. HALLOWELL, M. D.

Inspector of Milk.

Quincy, Jan. 1, 1895.

Report of Inspector of Animals and Provisions.

To His Honor, William A. Hodges, Mayor of Quincy:

The development and spread of tuberculosis among animals have assumed such proportions and constitute so great a menace to the health of the community that the Board of Cattle Commissioners have determined to adopt a fixed policy for the eradication of the disease, in general terms as follows:—

1st.—Quarantine regulations upon cattle entering from without the borders of the Commonwealth.

2d.—Regulation of cattle traffic at Brighton, Watertown and Somerville, which shall include all animals from within and without the Commonwealth.

3d.—Systematic inspection of all herds in the State, beginning at the Cape; followed by extermination of diseased animals, disinfection of contaminated premises, and fixed quarantine regulations.

Careful investigations conducted by the Board in the use of tuberculin enable them to conscientiously add their endorsement to that of all careful investigators who have experimented with it since its discovery in 1891, who agree

1st.—That tuberculin is a reliable agent for determining the presence of tuberculosis in cattle.

2d.—That tuberculin properly prepared and carefully handled can have no injurious effect upon healthy animals.

3d.—That it is the only known means whereby a positive diagnosis can be made in the early stages of the disease.

In consideration of the above stated facts all the herds in the State will be systematically examined and subjected to the tuberculin test; and for the efficient work of eradicating the disease it is essential that every tuberculous animal in whatever stage shall be found and destroyed.

The extermination of the disease from a given herd must be followed by thorough disinfection of contaminated buildings and the careful exclusion of the herd from new sources of infection, each district to remain under quarantine regulations till the State is covered. Such regulations shall allow the entrance or exit of all animals, which, after being treated, have been branded with the seal of the commission, or until otherwise ordered by the Board.

The cost to State will be more than repaid in dollars and cents from the increased demand and value of the products derived from this source. Sanitarians, as well as all other intelligent people throughout the United States, look to Massachusetts as a State always at the front in all matters of

PUBLIC HEALTH AND WELFARE.

The importance of the subject is abundantly demonstrated. The dairymen throughout our eastern States, are watching and waiting for a market where they can go and be assured of purchasing animals free from tuberculosis. Every intelligent, thinking man in New England to-day is asking himself the question: "Where can I procure my milk, butter and cheese, with the absolute knowledge that I am not giving to my family the germs of consumption?"

It has been stated that consumption destroys one-sixth of the human race. Consumption and tuberculosis are one and the

same disease. The same germ that produces tuberculosis in cattle produces consumption in man. The disease is communicable from a diseased man to a healthy animal, and from a diseased animal to a healthy human being.

The malady is conveyed from an affected animal to mankind through the milk or the meat used for food. It is because of this incontestible, but rather recently appreciated fact that so much of an endeavor is now being made to rid the different states and countries of tuberculous cattle.

During the past year the Legislature of this Commonwealth passed an act codifying and extending the law in relation to contagious disease among domestic animals, being Chapter 491, of the Acts of 1894.

Contagious diseases under the provisions of this Act shall include glanders, farcy, contagious pleuro-pneumonia, tuberculosis, Texas fever, foot-and-mouth disease, rinderpest, hog cholera and rabies.

Every inspector appointed under the provisions of this Act shall carry out and enforce all regulations and orders to him directed by the Board of Health under the provisions of this Act, or by the Board of Cattle Commissioners or any of its members, in the discharge of his duties.

Said inspectors shall make regular and thorough inspections of all neat cattle found within the limits of their several cities and towns, such inspections shall be made at such times and in such manner as the Board of Cattle Commissioners shall from time to time determine and direct. They shall also make, from time to time, inspections of all other domestic animals within the limits of their several cities and towns, whenever they have knowledge or reason to suspect that such animals are affected with or have been exposed to any contagious disease, and they shall immediately inspect any and all domestic animals whenever directed so to do by the Board of Cattle Commissioners or any of its members.

Said inspectors may inspect all veal found in said city or town or offered or exposed for sale or kept with the intent to sell therein, and if said veal is, in the opinion of said inspector, that

of a calf killed under four weeks old, he shall seize the same and cause it to be destroyed or disposed of as provided in Section 10.

For the purpose of inspecting or examining any animal, carcass, meat, fish, vegetables, produce, fruit or provisions of any kind under the provisions of this act, any inspector, duly qualified, may enter into any building or buildings, or any part thereof, enclosure or enclosures, or other place where any such animal, carcass, meat, fish, vegetables, produce, fruit or provisions of any kind are stored or kept, or exposed for slaughter or sale, and may examine or inspect the same.

Any person who prevents, obstructs or interferes with any such inspector, or other person having the power and authority conferred upon inspectors under this Section, in the performance of any of his duties as provided herein, or who shall hinder, obstruct, or interfere with his making any such inspection or examination, or who shall secrete or remove any animal, carcass, meat, fish, vegetables, fruit or provisions of any kind, for the purpose of preventing the same from being inspected or examined under the provisions of this Act, shall be subject to a fine not exceeding one hundred dollars, or to imprisonment in jail not more than sixty days, or by both such fine and imprisonment.

I find in Quincy some very fine cows, oxen and young cattle, well kept and in good condition and have found but few cattle to quarantine, and yet there may be some cases of tuberculosis in the first stages that cannot be detected without the aid of tuberculin; yet I think that the cattle in Quincy are comparatively free from it.

HORSES.

There has been a number of cases of glanders and farcy and some horses have been killed. I wish if anyone knows of a case of suspicion that they would notify me immediately that it may be taken care of at once, as it is a dangerous, loathsome and contagious disease.

MEATS AND PROVISIONS.

I think Quincy has some provision stores to be proud of, with a fine quality of meat and provisions, kept neat and clean ; others do not rank quite so high, and I have been obliged to seize and destroy that which was not fit for food, but the greatest trouble is with meat and fish carts that come from out of town, especially those which come from Boston. Sometimes they may have a tolerably fair load and again they may have that which is not fit for food.

Respectfully submitted,

JAMES M. CUTTING,

Inspector of Animals and Provisions.

Police Department.

To His Honor, the Mayor of the City of Quincy :

SIR :—In accordance with the City ordinance governing the Police Department, I have the honor to submit this, the sixth annual report of the Department for the year ending December 31st, 1894.

The Police Force now consists of ten men : one chief of police, eight regular officers and one special officer. Seven patrolmen are on duty at night, one in the day time, and one man in charge of the Police Station at night.

The work of the Police for the past year has been as follows :

Number of Lodgers accommodated	1876
Whole number of arrests	380
Males	368
Females	9
Married	149
Single	228
Adults	332
Minors	45
Residents	263
Non-residents	114

The offences for which arrests have been made are as follows :

Assault	32
-------------------	----

Assault and battery	2
Assault on an officer	1
Assault with dangerous weapon	2
Assault (felonious)	2
Abusing family	1
Bastardy	1
Contempt of Court	2

Pocket-books found and returned to owners	3
Runaway horses caught	19
Bicycle found and returned to owner	1

LIQUOR LAW ENFORCEMENT.

The liquor law has been enforced the past year by the local police, with the assistance of others who always stand ready to lend a helping hand in this work, —with the following result :—

Prosecutions for violation of the law 8 ; of these, two have paid fines, two were committed to jail for non-payment of fines, two appealed to a higher court ; one was discharged, and one was found guilty and case placed on file. Of the appealed cases, one was discharged and the other is yet unsettled.

Search warrants issued by the Court, 5 ; In all these cases the liquors seized have been forfeited in the lower Court, but

two appealed to a higher Court, and one was forfeited there, and one ordered to be returned.

I think the law has been enforced without fear or favor, with credit to the department, and light expense to the City: the actual expense amounting to only one hundred and thirty-five dollars and fifty cents (\$135.50)

I believe that the convenience of the police Department are behind those of all other departments and we are not keeping pace with the growing City. I think it advisable for the City to have three more regular officers. I know better work could be accomplished.

The Police Department has asked for nothing and receives nothing, and it has now come to the point where its needs should be looked after by some one. What officers we have are faithful and do their duty the best they can with what they have to do with.

There should be some method of communicating between the different routes and the Police Station. It is not infrequent that we receive notice by telephone, during the night, of teams strayed or stolen and various other happenings and desiring that the police be notified to be on the watch; but what way have we to notify them. The police in different cities and towns are dependent on each other for assistance and Quincy should try to render as good service to others as she receives. In the early part of the evening, through the courtesy of the street car Conductors we have been able to receive and send notes, lanterns etc., to different parts of the City, but when the cars are done running for the night, communication is cut off. I desire here to express my thanks to the conductors for their assistance in this manner. Quincy has so many places of "resort" and picnic grounds that are visited by all classes, that there is hardly a day in the summer that there is not word sent to the police station of a disturbance somewhere and a demand for police officers. There should be a horse and wagon provided for the use of the department to convey officers to such places, and kept in the night time where it could be sent to convey arrested persons to the police station. As it is now, if an

officer arrests a person after the cars have stopped running (and often when they are running, such language is used that he would not take them on a car) there is no way but to hunt the neighborhood over for a team and then perhaps not find one, and finally is obliged to wrestle with his prisoner for one or two miles to the station house ; and this takes the officer from his route from one to two hours at the very time, perhaps, when he is needed to look after others.

The place we now occupy is a poor apology for a police station. Situated as it is in the cellar under the City Hall, without sunshine or ventilation, it can be nothing but an unhealthy place, totally unfit for the purpose for which it is used. It might have answered the purpose twenty-five years ago, but the City has grown and the demands on the police have increased as rapidly as on any other department. There is practically one room for lodgers, tramps and prisoners, drunk or sober, be they, men, women or children. If we had as good a place as the abandoned fire station on School street, that was considered not fit to keep horses in, we would be well provided for in comparison with our present quarters. In my opinion it would be wise to look the situation over and ascertain whether or not the old stone school house on School street can be repaired and put in proper shape for a police station at a comparatively small cost to the City, and whether it would not answer all requirements for several years.

In concluding this report I desire to express my thanks to his Honor the Mayor, for valuable advice and unwavering support to all regular and special officers for their ready and willing manner in responding to all calls, and their utmost endeavor to keep peace and good order. I fear the public do not sufficiently realize how well they have performed their duty under the trying circumstances and cramped condition in which they are placed. My sincere thanks are also due to all citizens who have in anyway assisted me in the discharge of my duty.

Respectfully submitted.

JOSEPH W. HAYDEN,

Chief of Police.

Thomas Crane Public Library.

The City appropriated for the use of the library for the past year \$5,670, of which \$5,335.99 have been expended for the usual purposes. The tables and other data annexed to this report have been prepared by the librarian and indicate the valuable uses that the citizens of Quincy are making of this library. Some changes have been made in the reading room, making it more convenient for use and the heating apparatus has also been replaced. A fund for a new catalogue is slowly accumulating, but on account of the increase in the number of volumes belonging to the library and the great use that it is being put to, a new catalogue is required at once, and we therefore recommend that there be a sufficient appropriation for such a purpose. The income upon the trust funds held for the library has been employed as directed by the donors. It is to be hoped that it will not be forgotten by all liberal minded people interested in the prosperity of the library that there is ample space upon its shelves to hold all gifts of books and papers that their generosity may prompt them to contribute, and we hope that they will bear in mind that while the library is well equipped for most work, yet in special branches and particularly relating to educational matters, there remain vacant places to be supplied. During the past year the library has sustained a

serious loss in the resignation of the Hon. Charles Francis Adams from its Board of Trustees, consequent upon his removal from town. We are sure that the citizens of Quincy will heartily justify the Board if we thus publicly extend to him the regrets of everyone that he could not have remained with us and continue at the head of the library his very able and faithful services. Whatever is best in its creation and fruition belongs to him. Faithful and capable men have toiled with him in this work for years, but he has been the master builder and that we have this fine monument dedicated to our people is more justly due to his untiring efforts than to all the rest of us. And although he would not assent to this public recognition we claim the right to extol and to thank him for his faithful, sincere and capable services in our behalf, and to say that the citizens of Quincy, as the best possible appreciation of what he and the others have done for the library, will keep up and advance if possible, its standard of excellence. The John Adams library has been kept in the Crane Library building ever since it has been open to the public; practically it is of little, if any, use for popular circulation. It is said it has only been consulted by two people during the past ten years. However, this gift was regarded, and particularly by the older people, as something more than a curious collection of ancient and unused book, but rather as a mark of kindly recognition and compliment on the part of this eminent man to his neighbors, and it seemed but right, to many at least, that these books should have remained in town. It has been thought by others, however, (and upon that opinion the Board of Supervisors having the direction and control of these books has acted), that the same should be placed in and become a part of the Public Library in Boston. The Trustees of the Thomas Crane Public Library had only the custody of them and we delivered them up at the request of the Board of Supervisors and understand that they are now in the Boston Library. The chairman wishes to add that it seems to him a misapprehension of the intention of President Adams under his deed of gift to have permitted these books to be removed out of the limits of this City, and that, at any rate, our

right to them ought to continue ; that while we do not object to the citizens of Boston getting all the advantages which they can out of an attentive perusal of these ancient volumes, the title is in us and that we ought not to surrender this right.

Respectfully submitted,

GEORGE W. MORTON,

Treasurer.

Report of the Fire Department.

To His Honor the Mayor of the City of Quincy :

In compliance with the requirements of the City ordinance, I hereby present my first annual report for the year ending December 31, 1894, containing a statement of all fires and alarms for the year; the loss and insurance on the same as far as could be ascertained; a list of the permanent force of the department and their ages; a schedule of the property under their charge; also:

ORGANIZATION.

The force consists of one chief and six assistant engineers, six permanent men and sixty-four call men, four hose companies with ten men each, one ladder company of twelve men, one combination chemical engine and hose wagon with ten men, one chemical engine at Hough's Neck, with volunteer company, with one man to take care of same.

APPARATUS.

The apparatus consists of one steam fire engine in good condition which has been thoroughly repaired this year, one combination chemical engine, one ladder truck, two hose

carriages, three hose wagons, two hose jumpers, one express wagon for fire alarm purposes, one exercise wagon loaded with one thousand feet of hose ready at all times at the Central Station in case of a large fire; one chemical engine, one hand engine. Hose 3 wagon has been put in first class repair this year. I would recommend a new hose wagon for the central fire station, as the one in use is not heavy enough to carry the load which is put upon it. I will recommend putting this wagon in Ward 2 and putting the hose reel which is called the W. M. French at Hough's Neck, as I see that the water pipes are being laid in that direction.

Furthermore I will recommend a Central Fire Station to be built between Squantum Street and the old car house lot of the Q. & B. Street Railway.

With this Central Station we can cover Atlantic, Norfolk Downs and Squantum and Wollaston, which is covered mostly by the Central Station now. By doing so people in Squantum would get a very good fire service, which they do not get now. I would also recommend putting the combination Chemical in the new station, also the hose wagon at Wollaston. I will also recommend putting the Hook & Ladder truck which is now at the Central Station into the new Station, and getting a heavier truck in its place, as we have got a number of large buildings in the centre of the city. By doing so the apparatus from the Central Station now would not have to go until a second alarm, except the steamer, which I would have go to all alarms. That would leave the hose wagon and hook and ladder truck, which go to all alarms now, in the Central Station in case a fire should break out in some other part of the city. There have been two new fire stations built the past year, one in Ward 2, and one in Ward 4. I would recommend that they be supplied with a permanent force as it would give those two Wards better service. I would recommend that a chemical engine be purchased as soon as possible as it would be of great value to the department.

The number of horses in the Department owned by the city is eight, seven in good condition and one which will have

to be changed this year. We have in service, 10,450 ft. cotton hose, rubber lined, 600 feet of which is in poor condition ; 300 ft. linen hose. The water supply continues to be good. New hydrants have been added in nearly all parts of the city, thereby increasing the facilities of the Department to get a supply of water and to use shorter lines of hose. 92 new hydrants have been added during the past year, making the whole number 278. I would recommend putting in 50 hydrants on the old line of pipes, as that would give shorter lines and better fire protection.

RESERVOIRS.

The reservoirs are 16 in number, and are in about the same condition as they were a year ago. Two of them have been repaired this season.

FIRE ALARM.

The fire alarm has been extended the past year through to Quarry street, thereby giving the granite district two signal boxes. There have been five signal boxes added the past year. I would recommend putting in ten more this year.

CONCLUSION.

In closing this report I desire to tender my sincere thanks to your Honor for your interest in the welfare of the Department, to the Council for all favors rendered me during the year, to Chief of Police Hayden, officers and men, for the efficient manner in which they performed their duties at all fires, to the Committee on Fire Department for the interest they have manifested in the business of the Department, to City Electrician Wight for the pains taken at all times to keep the fire alarm in order, to my associates of the Board of Engineers, officers and members for the prompt and efficient manner in

which they have discharged the duties, thereby maintaining the reputation of the Department for efficiency.

FIRES AND ALARMS.

There were 53 alarms during the year, 43 bell alarms and 10 still alarms.

The Value of property \$98,160.00, loss 13,259.00.

Insurance \$60,250.00. Insurance paid \$9,021.00.

General Alarm,—Twelve blows, followed by box number.

Recall,—Two blows, "fire all out."

One Session School,—2-2 three times.

Test,—One blow, 7 A. M., 5 P. M.,

Three blows call Chief to the Central Station.

Six blows, followed by box number, call Supt. of Water Works.

Police Call,—3 three times.

Militia Call,—4 three times.

FIRE RECORD, 1894.

FEBRUARY.

Feb. 12, Box 57, 12.05 P. M. wooden house of John Brennan. Value \$2600; Damage \$2200; insurance \$2200. Value of contents \$250. Damage to contents \$200. Incendiary.

Feb. 13, Box 57, 6.55 P. M. stable of John Brennan. Value of building \$500. Damage to building \$500; insurance \$500. Value of contents \$50; damage \$50. Incendiary.

Feb. 20, Box 52, 5.30 P. M. house of W. G. Corthell. Value of building \$3,500; damage to building \$25; insurance \$2,700; insurance paid \$25. Value of contents \$2,300; damage \$55. Insurance \$1,300; insurance paid \$55. Overheated lamp.

Feb. 24, Box 49, 9.07 A. M. house of Welch & Tisdale. Value of building \$500. Damage to building \$150; insurance none. Value of contents \$100. Damage \$10. Defective flue.

MARCH.

Mar. 7, still alarm 5 P. M. house of James Stetson. No damage. Overheated furnace. Value of building \$6,500; Value of contents \$2,500.

Mar. 14, Box 23, 7.48 P. M. fire in rubbish, back of Tirrell & Sons.

Mar. 17, 7.30 P. M. still alarm, Independence avenue, brush fire.

Mar. 20, 9 A. M. Box 45, house of F. J. Fuller. Value of building, \$1,800; damage to building, \$50; insurance \$2,000;

Mar. 25, 9.12 A. M. Box 71, shed of Mrs. D. Burrell. Value of building \$100. Damage to building none. Heating pitch.

Mar. 27, 9.28 P. M. Box 26, tool house of N. Y., N. H. & H. railroad. Value of building \$250. Damage to building none. Spark from engine.

Mar. 31, 2.30, A. M. Box 68, house of C. M. Driver. Value of building \$1,400. Damage to building \$1,400; insurance \$1,000; insurance paid \$1,000. Value of contents \$300; damage to contents \$300; insurance \$100. Cause unknown. In which three men lost their lives.

APRIL.

April 1, 1.15 P. M. still alarm, Independence avenue, brush fire.

April 5, 5.40 A. M. Box 26, private work shop of W. R. Tyler. Value of building \$100; Damage to building \$5. Value of contents \$50; Damage to contents \$3. Overheated oil stove.

April 13, 4.45 P. M. Box 71 false alarm.

April 19, 11.45 A. M. Box 24 near City Hospital, brush fire.

April 22, 8.02 P. M. Box 54, false alarm.

April 26, 10.20 A. M. Box 42 brush fire near Wilson quarry.

April 27, 10.45 A. M. Box 51, house of Dr. Forsyth. Value of building \$2,600. Damage to building \$60. Value of contents \$1,000. Insurance on contents \$800. Damage none.

April 28, 2.15 P. M. Box 38, building of John Cashman. Value of building, \$260. Damage to building, \$260. Set on fire by boys.

April 29, 1 A. M., Box 46, office Co-operative Company. Value of building, \$100. Damage to building, \$100. Value of contents, \$25. Incendiary.

MAY.

May 15, 6.15 P. M. Call to Boston.

May 30, 7 A. M., Box 34, stable of R. D. Chase. Value of Building, \$400. Damage to Building, none. Insurance upon \$300.

JUNE.

June 17, 4 P. M., Box 41, blacksmith shop, of McKenzie & Patterson. Value of Building, \$400. Damage to Building, \$25. Set on fire.

June 17, 2.38 P. M., Box 37. Wood pile of T. Elcock.

June 18, 2.40 P. M., Box 52. Wood pile of C. R. Sherman.

June 20, 3.40, A. M., Box 25. Building owned by Mrs. E. B. Bent. Value of Building, \$1,800. Damage \$800. Insurance \$300. Insurance paid \$300. Incendiary.

June 20, 3.40 A. M., Box 25. Building owned by Albert Keating. Value of Building \$2,500. Damage \$200.

Sept. 24, 7.55 P. M., Box 41, blacksmith shop of McDonnell & Sons. Value of building \$175. Damage to building \$5. Insurance \$150. Caused by a piece of hot steel.

Sept 25, 1.30 P. M., Box 68, House of Henry Guild. Value of Building, \$1,000. Damage to Building, \$1,000. Insurance \$500. Insurance paid, \$500. Value of contents, \$1,000. Damage \$1,000.

OCTOBER.

Oct. 29, 8.18 P. M., Box 26. Building of Q. & B. St. Railway Co. Value of building, \$5,000. Damage to building, none. Insurance \$4,000. Value of contents, \$2,000, Insurance upon \$2,000. Rats and matches.

NOVEMBER.

Nov. 4, 11.15 P. M. Box 37. House of Mrs. J. Q. McDonnell. Occupied by Emery L. Crane. Value of building, \$5,000. Damage to building, \$230. Insurance \$3,000. Insurance paid \$230. Value of contents, \$2,200. Damage to contents \$210. Insurance \$1,900. Insurance paid \$210. Defective flue.

Nov. 17, 7.28 P. M., Box 25. House of Michael Cook. Value of building, \$1,100. Damage to building \$5. Insurance \$800. Insurance paid, \$6. Value of contents \$100. Defective flue.

DECEMBER.

Dec. 11, 8.30 P. M., Box 35. House of Weston W. Osborne. Value of building \$4,500. Damage to building \$48. Insurance \$4,000. Insurance paid \$48. Value of contents, \$1,500. Damage to Contents \$25. Insurance \$1,500. Insurance paid \$25. Electric wire.

Dec. 18, 1.30 P. M., Still, house of H. H. Faxon. Value of building, \$800. Damage to building, none. Insurance none. Caused by soot burning.

Respectfully submitted,

PETER J. WILLIAMS,

Chief of Fire Department.

Water Department.

QUINCY, December 31, 1894.

To His Honor the Mayor and the City Council, of the City of Quincy:

GENTLEMEN:—The Board of Water Commissioners respectfully submit the following report:—

The principal work of the year has been on extension of street mains. In accordance with the expressed desire of the City Council no pipe laying has been done by contract. If the cost of doing the work has been somewhat increased, the Board are satisfied that it has been carefully and well done. Of the appropriation available for the extension of mains, \$92,856.33, we have an unexpended balance of \$1,322.06. A portion of this will be required for the payment of pipe ordered but not delivered. In many cases, the pipes laid this year connect with and intersect the smaller pipes of the original works, thus doing away with numerous 'dead ends' and serving as feeders to reinforce the smaller pipes. As a rule the Board have not used pipe of less than 6 in. diameter on new extensions. During the year $11\frac{8.6}{10.6}$ miles of pipe have been laid, and 92 hydrants added. Fire protection often demands the concentration of large quantities of water at one point in addition to the maximum domestic consumption. Therefore in planning extensions care has been taken to have the main arteries suitably located and large enough for the purpose.

The Board advise the extension of the 16 inch main on Common street to a proposed stand-pipe to be erected on Forbes

hill in Ward 5. The land has already been acquired by the City. It is important that this work be completed at once, in order to have a safe margin of water at hand for fire supply in case of unusual accidents either to the pumping machinery or the street main leading to the present stand-pipe. The building of this stand-pipe will obviate the necessity of continuous pumping, especially during the night time, and will be of great value to the distribution service, the consumption of water having increased to such an extent that at times during the summer months it is impossible to maintain a high level of the water in the present stand-pipe, in case of a large demand for fire purposes.

The Board are of the opinion that the appropriation, if any is made for extensions the ensuing year, should be small and for minor extensions only. With the increase of population the question of supply becomes of first importance. We have absolutely reached a point where it is necessary to provide additional storage capacity.

Considerable repairs have been made on the well and the roof of the Pumping Station and the same are now in good order. A drive way and other improvements have been made to the pipe yard in the rear of the works. The cost of the above as well as the painting of the stand-pipe and about \$1,350, expended for excavating mud from the Reservoir, has been charged to the sum appropriated for maintenance. The conveniences for storing coal are insufficient for the purpose and we recommend an appropriation for new coal sheds.

The reduction made in the schedule of water rates went into effect on July 1, 1894. The total amount received for the sale of water for the year ending Dec. 31, 1894 is \$40,943.05. We estimate the probable gross receipts from the source for the year 1895 to be \$41,000, and the amount required for maintenance account at \$14,000.

The Joint Committee, consisting of the Mayor and Water Board, have devoted considerable attention to the subject of the future supply of water and collected much information bearing upon the same, which together with general plans showing the

water shed of the present reservoir, a proposed new storage basin and a scheme for using the water of Blue Hill River, has been submitted to the State Board of Health for its consideration. It is of great importance that the investigations be continued and a scheme perfected in season to provide an additional amount of water for use during the summer of 1896.

Total length of street mains, Dec. 31, 1894,	56 $\frac{4}{10}$ miles
Total number of service connections,	2,243
Total number of hydrants,	278

For minor details of work done by this department, see report of the Superintendent annexed hereto.

Water Commissioners.

Report of Superintendent.

To the Board of Water Commissioners of Quincy:

GENTLEMEN:—The report of the Superintendent of the details of work done by the direction of the Board for the year ending December 31, 1894, is respectfully presented.

The average daily consumption of water was 797,999 gallons, an increase of 68,509 gallons more than the average daily use of 1893. The total consumption for the year was 291,269,817 gallons. The maximum quantity used was 1,495,998 gallons July 20, and the minimum quantity was 582,056 gallons February 4.

The water in the reservoir was drawn 9.38 feet below the overflow, 2.20 feet below the lowest point in 1893. From this time there was an increase till December 31, when the water was .99 feet below the overflow. The diagram, made by Mr. E. W. Branch, C. E., shows the elevation of the water for each month.

The daily average consumption in gallons is given by months for 1893 and 1894.

Total	37.26 in.
-----------------	-----------

The chemical and microscopical examination of the water in the reservoir has been continued through the year, under the direction of the State Board of Health and the report of these examinations furnished by Mr. F. P. Stearns, the Chief Engineer of the Board, is herewith presented.

A contract was made February 1, with the McNeal Pipe & Foundry Co., of Burlington, N. J., to deliver 43,516 feet of pipe with the required special castings by May 15th., all of which were delivered at the pipe yard in the rear of the pumping station before the specified time. An order was given the Warren Foundry & Machine Co., Oct. 30th. for about 7,140 feet of pipe; a further order for 13,000 feet was given to the McNeal Pipe & Foundry Co., Nov. 3rd.

By vote of the Board, the work of laying pipe was begun March 14th, and was continued through the season as long as the ground was not frozen. All the work was done by men, employed by the Department, by the day.

The amount of pipe laid is 62,712.5 ft., 1,686 ft. of which was laid to replace that amount of 2 inch pipe which was taken up.

The pipe system was extended 11.54 miles, the location and details of which are shown in the following table.

All the pipe ordered has been laid except about 700 feet on Robertson street, to complete the 8 inch line from Willard street through Robertson, Adams and Beale streets to connect with Wollaston, which was not finished owing to the cold weather. Also the 10 inch on Sea street, which is now being delivered along the line and about 600 feet of 6 inch in the pipe yard.

The 6 inch pipe over the railroad bridge on Adams street was taken out at the time the new bridge was built and afterwards re-laid; a new box was built around the pipe over the bridge.

In connection with the above work 128 gates and 92 hydrants were set. The hydrant formerly on the southerly side of Copeland street corner of Common was moved to the westerly side of Copeland, and the one on Cross street pipe near the corner of Common was relocated on the easterly side of Common Street opposite Cross street and connected direct with the sixteen inch pipe through Common street. The number of applications received for service connections was 364. Number connected 354, 2 were cancelled or withdrawn and 8 not put in.

Electric lights have been put in the pumping station. The outside wood work of the building has been painted, a part of the brick wall of well No. 1 was taken down and relaid, the roof repaired and the wood finish painted. The pumps and boilers have had the usual care and are now in good condition. The furnaces of the boilers and the grates will require some repairs before another summer. When this is done, new shaking grates of modern style can be introduced with a small increase of cost over the present pattern in use, and an automatic steam damper will also be of value in maintaining a uniform steam pressure on the boilers as the pump has to be run in the summer and also add to the efficacy of the boilers. With these exceptions, no unusual repairs are anticipated for the next year. The walls of the boiler room have been whitened by the regular

employees at the station. A driveway was made from the pipe yard to the southerly end of Penn street. The stand pipe was thoroughly cleaned and painted inside and outside. The fence around the stand pipe was also painted.

Under the direction of the Board, the loam and soil were removed from part of the inlet end of the reservoir and the material removed was deposited so as to fill a part of the land formerly flowed only a few weeks when the reservoir is full. The cost of this work was \$1,349.36, and the same was charged to the appropriation for maintenance.

Number of meters in use 109.

Respectfully submitted,

F. E. HALL, Superintendent.

Report of City Clerk.

CITY CLERK'S OFFICE, Jan. 1, 1895.

To His Honor, the Mayor of the City of Quincy:

SIR:—I submit herewith the sixth annual report of this office for the year ending December 31st, 1894.

RECEIPTS.

Marriage licenses	\$89 00
Dog licenses	204 60
Other licenses	169 00
Recording mortgages, &c.	140 30
<hr/>	
Total	\$602 90

The above sum has been paid to the City Treasurer, as will appear by his account.

Number of marriages recorded in 1894	186
Number of deaths recorded in 1894	380
Number of births recorded in 1894	660
Number of marriage intentions recorded in 1894	178

Number of dogs licensed, 928 males, 83 females, for which the sum of \$2,244.00 was received, of which \$2,039.40 was paid to the County Treasurer.

Annexed are lists of births, marriages and deaths recorded in Quincy in 1894, the election returns for 1894, the Jury List for 1895, and the City Ordinances, revised to Jan. 1, 1895.

Yours respectfully,

HARRISON A. KEITH,

City Clerk.

BIRTHS IN QUINCY, 1894.

CITY ORDINANCES.

REVISED TO JAN. 1, 1895.

CITY OF QUINCY.

No. 1.

AN ORDINANCE ESTABLISHING THE FIRE DEPARTMENT OF THE CITY OF QUINCY.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. A Fire Department is hereby established.

There shall be a Chief Engineer of the Fire Department, and one Assistant Engineer from each ward, and one Superintendent of Fire Alarm, and members to the number of sixty-nine (69).

One Steam Fire Engine Company, to consist of three permanent men, viz: Engineman, Assistant Engineman and Driver.

Hose Co. No. 1, to consist of twelve men, one of whom shall be permanent.

Hose Co. No. 2, to consist of ten men.

Hose Co. No. 3, to consist of ten men.

Hose Co. No. 4, to consist of ten men.

Hook and Ladder Co. No. 1, to consist of thirteen men, one of whom shall be permanent.

Chemical Co. No. 1,—

Chemical Co. No. 2, to consist of ten men.

No person shall be appointed a member of the Fire Department who does not sustain a good moral character, and who is not a citizen of Quincy.

SEC. 2. The Chief Engineer shall be responsible for the discipline, good order and proper conduct of the officers and men constituting the Department, and for the good condition of all houses, reservoirs, hydrants, engines, hose, hose carriages, hooks and ladders, trucks, and all apparatus and furniture thereto belonging and connected with the Department. He may remove or suspend any officer or member. He shall have the control of the engine and other houses used by the Department; of the furniture therein, and of the engines and apparatus, as well as of all other property appertaining to the Department.

SEC. 3. The rank of officers in case of fire shall be as follows :

Chief Engineer, assistant engineer of the ward in which the fire originates, the first engineer to arrive, the foreman of the first company to arrive ; and they shall have sole and absolute control and command of all the other members of the Department and of other persons present at fires.

[EXTRACT FROM CH. 35, PUBLIC STATUTES.]

"*Sec. 3.* The fire-wards, or any three of them, present at a place in immediate danger from a fire, or, where no fire-wards are appointed, the selectmen, or mayor and aldermen present, or, in their absence, two or more of the civil officers present, or, in their absence, two or more of the chief military officers of the place present, may direct any house or building to be pulled down or demolished, when they judge the same to be necessary in order to prevent the spreading of fire.

Sec. 4. In cities and towns which, by vote of the City Council, or of the legal voters respectively, have accepted the provisions of this section, or of chapter two hundred and one of the statutes of the year eighteen hundred and seventy-three, the engineer of a fire department in command at a fire shall, to the exclusion of all other persons, have the power conferred by the preceding section."

SEC. 4. The Chief Engineer shall keep rolls of the companies, specifying the name, age, occupation and residence, and the date of the admission and discharge of each member of the Department, and he shall keep an accurate account of all property belonging to it.

He shall make annually, and oftener if required, to the Mayor, a detailed report of the condition of the Fire Department, of loss and accident by fire, with the causes thereof, as well as they can be ascertained, and of the description of the buildings and other property destroyed or injured, the amount of insurance, and the names of the owners, and such other duties as are prescribed by chapter 199 of the Acts of 1888.

SEC. 5. The Chief Engineer shall examine all places where shavings or other combustible materials are deposited or collected; and shall see to the removal of the same, whenever, in his opinion, the same are dangerous; and shall direct the owners, tenants or occupants of such places to remove the same, which they shall do forthwith; and, in case of refusal or neglect, he shall cause the same to be removed at the expense of such owners, tenants or occupants.

SEC. 6. The Chief Engineer and assistant engineer shall have and exercise the power and duties of forest fire-wards, and may employ such assistance as they may see fit to suppress forest fires, at the expense of the city.

SEC. 7. The Chief Engineer shall observe all buildings in which steam engines are used, and all buildings in process of erection or alteration, and make a record of such of them as in his judgment may be dangerous, and report thereon to the Mayor forthwith. Whenever, in the opinion of the Chief Engineer, any camphene or other explosive or inflammable fluid or material should be removed, he shall forthwith notify and direct the owner, tenant or occupant of the premises upon which the same are situated to remove the same, which he shall forthwith do. In case such tenant, owner or occupant shall refuse or neglect so to do, the Chief Engineer shall cause the same to be removed at the expense of such owner, tenant or occupant. No person shall obstruct the Chief Engineer in carrying out the provisions of this section.

SEC. 8. The Chief Engineer shall, on the last day of each week, prepare a pay-roll of all permanent men employed in the Department, and present it to the Mayor for his approval or disapproval. On the first day of December, in each year, the clerk of each company shall make a roll bearing the full name, age, occupation and residence of every call member of the company, specifying also the number of times the company has been called out, and the attendance of each member, to which shall be appended the following certificate :

“We, the undersigned, do hereby certify, that, according to the best of our knowledge and belief, the foregoing persons are members of——company, and that said company had consisted of——members during the last year; that during that time they have performed all the duties incumbent upon them as firemen, have been present at every turnout of the company, or have been duly excused; and that they are entitled to all the privileges and pay of firemen.”

The certificate shall be signed by the foreman and clerk, and shall be delivered to the Chief Engineer.

The Chief Engineer shall examine these rolls and present them, with the pay-rolls of the several companies, to the Mayor for his approval or disapproval.

SEC. 9. *Salaries*—Chief Engineer, \$400.00 per year; he to pay his own clerk.

Six Assistant Engineers; Wards 1 and 3, \$100.00 per year; Ward 4, \$50.00 per year. Engineers Wards 2, 5 and 6, \$37.50 per year.

One Engineman, \$17.00 per week.

One Assistant Engineman, \$17.00 per week.

One Superintendent of Fire Alarm, \$17.00 per week.

Driver of Steamer, \$17.00 per week.

Driver of Hose No. 1, \$17.00 per week.

Driver of Hook and Ladder, \$17.00 per week.

Call men on Hose No. 1, eleven; and Hook and Ladder No. 1, twelve; \$100.00 per year each.

Call men on Hose No. 2, ten; No. 3, ten; and No. 4, ten; and Chemical 2, ten; \$50.00 per year each.

Stewards of Hose No. 2, 3 and 4, and Chemical 2, \$40.00 additional per year each.

Man who takes care of Chemical No. 1, \$40.00 per year.

SEC. 10. The Chief Engineer shall have the care and management of the rooms, apparatus and machinery connected with the fire-alarm telegraph, and shall determine to whom shall be intrusted the keys of the signal-boxes. He shall prepare rules and directions for giving alarms of fire through the telegraph.

SEC. 11. No unauthorized person shall open any of the signal-boxes, except in case of fire, or interfere with the wires or the poles or other supports of the wires.

SEC. 12. The Chief Engineer shall see that every person raising a false alarm of fire is prosecuted.

SEC. 13. No gambling shall be allowed in any building occupied by the fire department, nor shall spirituous liquors be carried into, kept or used there.

SEC. 14. No unauthorized person shall draw water from the reservoirs or hydrants, except in case of fire, and except as otherwise provided. No part of the apparatus shall be taken from the city, unless to a fire, without special permission from the Mayor and Council, nor shall any engine, hose or truck be taken out of the city to a fire without permission of the Chief Engineer, or, in his absence, that of the Mayor.

No piece of apparatus shall be used for any purpose, except in extinguishing fires, without the consent of the Chief Engineer and Mayor.

SEC. 15. No occupant of any building or room in which there is a hatchway or trap-door shall suffer the same to be left open at night.

SEC. 16. Any member of the Department injured or disabled while on actual duty shall receive pay pro rata for the time lost in consequence, not exceeding three months.

SEC. 17. No person shall wantonly or carelessly set fire to

any tree, bush, grass, leaves, brushwood, rubbish or other substance in any place in the city of Quincy.

SEC. 18. Whoever shall violate any provision of this ordinance shall forfeit a sum not exceeding twenty dollars.

No. 2.

AN ORDINANCE TO PRESERVE ORDER AT MEET-
INGS OF THE COUNCIL.

Be it ordained by the City Council, as follows :

SECTION 1. If a person behaves in a disorderly manner during any meeting of the City Council, and after notice from the presiding officer persists therein, the presiding officer may order him to withdraw from the meeting, and on his refusal may order the constables or any other persons to take him from the meeting and confine him in some convenient place until the meeting is adjourned.

SEC. 2. The person so refusing to withdraw shall for such offence forfeit a sum not exceeding twenty dollars.

AN ORDINANCE CONCERNING THE OFFICE OF AUDITOR, AND DEFINING HIS DUTIES.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The City Council shall, in the month of January, choose an Auditor of Accounts, who shall hold office for the term of one year, beginning work the first Monday in February next ensuing, and until his successor is chosen and qualified. A majority of the votes of all the members of the Council, taken by roll-call, shall be necessary for the choice of the Auditor of Accounts, and he may be removed by the affirmative vote of a majority of all the members of the Council, taken by roll-call. He shall be sworn to the faithful discharge of the duties of his office, and shall receive such salary as the City Council shall from time to time determine, and whenever there is a vacancy, it shall be filled in the manner provided above.

SEC. 2. The Auditor, in addition to the duties prescribed by the Charter, shall certify all bills and claims against the City, which have been approved by the heads of department, and after certification shall place the same in the hands of the Treasurer. He shall also serve as clerk to the Committee on Finance and Accounts.

He shall keep his accounts in such form and in such detail as may be necessary to a clear exhibit of all expenditures and receipts. He shall keep an account with the Treasurer, charging him with the whole amount of taxes assessed for collection, with the amount of loans and sums of money that may be borrowed for the city, and with all securities and sums receivable, in order that the description and value of all personal property belonging to the city may be shown at any time by his books. He shall credit each account with its appropriations for the financial year, and with its receipts, and charge against the same the expenditures as they shall from time to time be allowed. Whenever an appropriation for any account is expended, the Auditor

shall immediately give notice thereof to the Mayor, the City Council, and the Committee on Accounts, which committee shall not pass or allow any claim or account chargeable against such appropriation, until the City Council provides the means of paying the same. The Auditor shall once in each month furnish the City Council and administration boards with a statement, showing the condition of each account, giving amount of appropriations, and receipts, expenditures, and unexpended balances under the same.

SEC. 3. The Auditor shall countersign all bonds, notes and certificates of indebtedness issued by authority of the City Council. He shall report to the City Council, under the direction of the Committee on Accounts, during the month of January in each year, in detail, the amount of appropriations, expenditures, and receipts during the preceding financial year; and the whole shall be arranged, as far as practicable, to conform to the accounts of the Treasurer. He shall include in said report a statement of the funded and temporary loans, the rate of interest thereon, and shall exhibit the liabilities and assets as shown on the books in his office at the close of the financial year.

No. 4.

AN ORDINANCE CONCERNING ASSESSORS AND
COLLECTION OF TAXES.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The Assessors shall meet on the first Monday in February, or as soon thereafter as may be, and organize as a board, and the Principal Assessor shall, *ex officio*, be chairman.

COLLECTION OF TAXES.

SEC. 2. All taxes shall be paid before the first day of November of the year in which the assessment thereof is made ; and on all taxes not paid before said day, interest at the rate of six per centum per annum shall be added from and after said day, inclusive, until said taxes are paid.

If any taxes are not paid before the first day of January, the Collector shall forthwith issue a summons demanding the payment thereof, which summons shall be forthwith served upon each delinquent by the Collector, or any constable or police officer of the city, either personally or by leaving the same at his last and usual place of abode, and twenty cents shall be added to said tax after said summons has been issued for the same ; and if said tax and the interest due thereon, and twenty cents additional for said summons are not paid in fourteen days after the service of said summons, the Collector shall forthwith collect the same according to law.

SEC. 3. The Collector shall give a bond with sufficient sureties, to be approved by the Mayor, in the sum of thirty thousand dollars for the faithful performance of the duties of his office and accountability for all money which may come into his hands as Collector of Taxes by virtue of his office.

Said bond shall be executed, approved and delivered to the Mayor before he enters upon the duties of his office. In case of the death or insolvency of any of the sureties on any bond so given, the Collector shall immediately give a new bond with

sufficient sureties as heretofore provided, and if he fails to give such new bonds within a reasonable time after notice to do so, it shall be sufficient cause for his removal from office.

In case the office of Treasurer and Collector is held by the same person, the bond shall be fifty thousand dollars.

SEC. 4. When the Tax Collector receives from the Assessors the list of persons upon whom a poll tax only is assessed, he shall immediately make out the tax bills and demand payment of the same, either by delivering the bill in person, or by an authorized agent, or sending it by mail postpaid, and such poll tax shall be paid when demanded or brought to the Tax Collector within fourteen days, and if not so paid to the Tax Collector he shall forthwith proceed to collect the same in the manner provided by the laws of the Commonwealth for the collection of taxes from delinquents.

SEC. 5. The Tax Collector shall immediately after receiving any assessment list from the Assessors make out and cause bills to be delivered to the persons assessed, either personally, or by an authorized agent, or by mail postpaid, and if the assessment is on personal property, if said bills are not paid within thirty days thereafter, he shall issue a summons to each person who fails to pay; and if such person does not pay his taxes within ten days after the receipt of such summons or after the service thereof upon him in the usual manner, the said Collector shall issue his warrant for the collection of said taxes.

No. 5.

AN ORDINANCE CONCERNING THE OFFICE OF CITY
TREASURER AND DEFINING HIS DUTIES.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The Treasurer shall give a bond with sufficient sureties to be approved by the Mayor, in the sum of thirty thousand dollars, for the faithful performance of his duty as Treasurer, which shall be executed, approved and delivered to the Mayor, before he enters upon the duties of his office. In case of the death or insolvency of any of the sureties on any bond so given, the Treasurer shall immediately give a new bond with sufficient sureties, as heretofore provided ; and if he fails to give such new bonds within a reasonable time after notice to do so, it shall be sufficient cause for his removal from office. The bond of the Treasurer shall be kept by the Mayor, who shall forthwith upon its receipt cause written notice thereof to be given to the Board of Assessors. The bonds of other city officers shall be kept by the Treasurer. If the office of City Treasurer and Collector is held by the same person the bond shall be fifty thousand dollars.

SEC. 2. The Treasurer shall keep, in books provided for that purpose, an accurate and true account of all his receipts and payments on behalf of the city, making the same conform as nearly as may be, to the accounts kept by the Auditor. He shall keep an account with each appropriation made by the City Council, and shall credit each account with its appropriations, and shall charge to each all sums paid out on such account. He shall, at the close of each financial year, make a written report to the City Council of the condition of the Treasury, and all moneys received and paid out by him during said year.

SEC. 3. The Treasurer is hereby authorized to pay from the Treasury all bills and claims against the city which have been approved by the heads of departments and certified to by the Auditor ; but he shall pay no money out of the Treasury unless so approved and certified, except State and County taxes,

SEC. 4. The Treasurer shall, at the close of each month, transmit to the Auditor and to the City Council, a statement in detail of all moneys collected or received during said month, with the names of the persons from whom, and for what the same were received; *provided*, that it shall be sufficient in reporting the receipts for taxes and assessments, to state the full amount received.

SEC. 5. The Treasurer shall, in behalf of the city, sign all notes, bonds, and certificates of indebtedness issued by the city and shall see that they are countersigned by the Mayor and Auditor of Accounts, and that the City seal is affixed thereto.

No. 6.

AN ORDINANCE CONCERNING ORDINANCES, ORDERS AND RESOLUTIONS.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. All by-laws of the city shall be termed Ordinances, and the enacting style shall be : Be it ordained by the City Council of Quincy, as follows :

SEC. 2. All ordinances shall be recorded by the City Clerk in the order in which they are passed to be ordained, in a book prepared and kept for that purpose, made of strong linen paper, with proper margins and indexes, and strongly bound. Said book shall be lettered "Records of Ordinances of the City of Quincy," and shall be preserved in the office of the City Clerk, subject to public inspection.

SEC. 3. Whenever the City Council expresses anything by way of command, the form of expression shall be, "Ordered;" and whenever said board expresses opinions, principles, facts or purposes, the form shall be, "Resolved."

SEC. 4. Every such ordinance, order, resolution or vote shall go into effect from and after the time of its approval by the Mayor; and if not approved by the Mayor, or returned, then as provided by the charter and the laws of the Commonwealth. This section shall not apply when it is provided otherwise.

SEC. 5. Every ordinance, and such of the orders, resolutions and votes as the Council may direct, shall be promulgated by publishing the same in such newspaper or newspapers, printed and published in the city of Quincy, as the Council shall direct; but a failure to comply with this section shall not affect the validity of any ordinance, order, resolution or vote.

No. 7.

AN ORDINANCE ESTABLISHING THE OFFICE OF
CITY PHYSICIAN AND DEFINING HIS DUTIES.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The office of City Physician is hereby established.

The Mayor shall annually, on or before the first Monday in February, appoint a City Physician, who shall be a resident of Quincy, and who shall hold his office one year from the first Monday in February of the current year, and until his successor is appointed.

He shall receive such compensation as the City Council may determine, the same to be paid in full for all services performed and medicines furnished, administered or prescribed, unless such medicines are furnished by the direct order of the Overseer of the Poor.

SEC. 2. The City Physician shall attend, under the direction of the Overseer of the Poor, upon all sick paupers, whether state or city, and upon all sick persons under the care of the city authorities at the Almshouse or elsewhere in the city, and at the request of the Chief of Police upon all prisoners or other persons confined in the city lock-up who require medical or surgical treatment.

He shall vaccinate all scholars in the public schools sent to him for that purpose by the School Committee, or Superintendent of Schools, and give them a certificate thereof.

He shall, at the close of each financial year, make a report to the Mayor, giving a general statement of the amount of professional service rendered by him, with such suggestions as he may deem proper.

SEC. 3. He shall also, at the close of each month, report in writing to the Overseer of the Poor the names of all poor people not lawfully a charge upon the city of Quincy who have received attendance from him during that month, and the dates and expense of such attendance.

AN ORDINANCE DEFINING THE DUTIES OF THE CITY CLERK.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The City Clerk shall notify the Auditor and Treasurer of all orders passed by the City Council authorizing appropriations, or abatements, and also any board or officer of any order appropriating money to be expended by said board or officer, or directing said board or officer to do or not to do, or authorizing the doing, or in any way affecting the powers or duties of such board or officer, immediately after such orders are approved by the Mayor or are otherwise in force.

SEC. 2. He shall keep a book alphabetically arranged, showing the names of all streets, ways and sidewalks in the city, which have been or may be laid out and accepted, with the date of the laying out and acceptance, and the width and alterations made from time to time.

SEC. 3. He shall be *ex officio* keeper of the City Seal, but shall permit the Mayor or any other officer to affix the same to any document to which the City Seal is required to be affixed.

SEC. 4. In order to secure a more perfect registration of births, marriages and deaths, in the city of Quincy, the City Clerk shall annually, in the month of January, and before his report to the Secretary of the Commonwealth thereon, make, or cause to be made, a canvass of the city for facts concerning births therein during the previous year, the expense of same not to exceed the sum of two hundred dollars and to be paid by the city.

No. 9.

AN ORDINANCE ESTABLISHING THE OFFICE OF
CITY MESSENGER AND DEFINING HIS DUTIES.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The office of City Messenger is hereby established. The City Council shall annually, in the month of January, and whenever a vacancy occurs, elect a City Messenger, who shall hold his office until his successor is elected, and shall receive such compensation as the City Council may determine.

SEC. 2. The City Messenger shall, under the direction of the Commissioner of Public Works, have the custody of such rooms as are occupied by the City Council and its committees.

He shall attend all sessions of the City Council, of any committees of the same, and of such boards as the City Council may direct.

He shall deliver all messages, notifications and other papers when thereto directed by the Mayor, President of the Council, City Clerk, Treasurer, and chairman of any board or committee.

Provided, That he shall not be required so to do at the request of the Collector of Taxes. He shall at all times be subject to such further orders as may be made from time to time by the City Council.

No. 10.

AN ORDINANCE CONCERNING THE CITY SEAL.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The design of the City Seal shall be a circle, one and one-half inches in diameter ; in the centre of the Seal a view of "Mount Wollaston ;" in the outer circle, over the top, the dates 1625, 1640, 1792 ; upon a scroll under the dates the word "Manet ;" upon a tablet under the view the word "Quincy," the date of its incorporation as a city, 1888.

The device thereof being as follows :

SEC. 2. All deeds and other legal documents made, given or entered into by the city, requiring a seal, shall be sealed with the City Seal, and shall be signed and acknowledged in behalf of the city by the Mayor.

AN ORDINANCE CONCERNING THE PUBLIC BURIAL PLACES.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The Managers of public burial places shall meet on the first Monday in February in each year, or as soon thereafter as may be, and choose by ballot from among its members a permanent chairman and a secretary, who shall keep a record of its proceedings.

SEC. 2. Said Managers shall have the charge and management of all the public cemeteries and burial places of the city, and the general supervision and expenditure of all appropriations made for the same, and may make all necessary by-laws and rules in relation thereto, not repugnant to law. They shall, at the close of each financial year, make a report to the Mayor of their proceedings and of the condition of the cemeteries and burial places under their care, with such information and suggestions as they deem proper.

SEC. 3. They may lay out said cemeteries and burial places into lots, and shall set apart a suitable portion as a public burial place for the use of the inhabitants free of charge. They may sell and convey to residents of the city, and to no others, the exclusive right of burial, and of erecting tombs, stones, monuments and cenotaphs upon any lot, and of ornamenting the same upon such terms, conditions and regulations as the board of managers shall prescribe, and the proceeds of such sales shall be paid into the city treasury, and be kept separate and apart from other funds, and shall be appropriated to pay the expense of improving and embellishing said cemeteries and burial places. They may, in their discretion, accept in payment, or part payment of the consideration of such rights, in any lot, a deed from the purchaser thereof releasing to the city similar rights owned by him in any other lot. The Managers of the public burial

places are authorized to convey lots in said burial places, and the chairman and secretary of the board are authorized to execute the deeds for said conveyances, and the City seal shall be affixed thereto.

SEC. 4. Any person holding, occupying or interested in any lot in a public burial place of the city may deposit with the City Treasurer any sum of money that may be determined by the Managers of public burial places, which sum so deposited shall be entered upon the books of the City Treasurer, and forever held as a fund which shall be invested or deposited as directed by the Board of Managers of public burial places, and the income from all such investments and deposits shall be expended under the direction of the Board of Managers of public burial places for the purpose of providing for the preservation and care of such lot or its appurtenances. The person making such deposit shall at the same time designate in writing, the name of the cemetery in which the lot to be cared for is located, the number and specific location of the same, and the name of the person in whom the right of title thereof stands; and the City Treasurer shall deliver to such depositor a certificate of deposit, setting forth the same and the purpose of said deposit.

SEC. 5. The Mayor and City Council shall, annually, as soon after their organization as practical, appoint a sufficient number of funeral undertakers; persons not licensed as undertakers are forbidden to undertake the management of a funeral.

SEC. 6. Upon the decease of a person within the limits of the city, it shall be the duty of the nearest relative or of the person in whose house the death may occur, or in default thereof, of any other person who may have first been informed of the event, to cause the same to be made known to some licensed undertaker as soon as practicable.

SEC. 7. No person shall bury or inter, or cause to be buried or interred in the city, or remove or cause to be removed from the city, the body of a deceased person, without having obtained a permit so to do from the Board of Health or its duly appointed agent, who shall not grant the same unless he shall have obtained

a certificate of the cause of death, signed or approved as required by law ; and it is hereby made his duty to grant such permit, unless cause shall appear for refusal.

SEC. 8. No person shall bury or inter, or cause to be buried or interred, any dead body, at any other time than between sunrising and sunsetting, except when authorized by the chairman of the board of managers of public burial places ; and no grave shall be re-opened for the burial or disinterment of any dead body, without a permit shall have been obtained as provided in Section 7.

SEC. 9. Any person who shall offend against any of the provisions of this ordinance shall be liable to a fine of not less than one dollar, nor more than twenty dollars.

No. 12.

AN ORDINANCE CONCERNING LICENSES.

Be it ordained by the City Council of Quincy, as follows :

AUCTIONEERS.

SECTION 1. Every person licensed as an auctioneer shall give a bond in the sum of two hundred dollars to the City Treasurer with sufficient sureties, to be approved by the City Council, with condition that he shall in all things conform to the laws relating to auctioneers, and shall pay for the license the sum of two dollars. The City Council shall cause all such licenses to be recorded by its clerk, in a book kept for that purpose, before being delivered to the licensee.

BILLIARD TABLES AND BOWLING ALLEYS.

SEC. 2. Every person licensed to keep a billiard, pool or sippio table, or a bowling alley, shall pay the City Clerk for the use of the city the sum of two dollars for the first two tables, and one dollar for each additional table, and two dollars for a bowling alley. All such licenses shall be recorded by the City Clerk, in a book kept for that purpose, before being delivered to the licensee, and shall set forth the name of the person licensed, the nature of the business, the number of tables, and the building or place in the city in which it is to be carried on, and shall continue in force until the first day of May next ensuing unless sooner revoked.

Provided, That such licenses may be granted during the month of April, to take effect on the first day of May then next ensuing.

THEATRICAL EXHIBITIONS, PUBLIC SHOWS, ETC.

SEC. 3. Every person licensed to set up, maintain or carry on any theatrical exhibition, public show, public amusement or exhibition, mentioned in Section 115 of Chapter 102 of the Public Statutes, shall pay to the City Clerk for the use of the city, before such license is issued, the following rates :

For theatrical exhibitions or shows, for each day and evening, four dollars.

For theatrical exhibitions or shows given in the Opera House, for one year, twenty-five dollars.

For skating rinks, for one year, twenty-five dollars.

For travelling circuses or travelling shows, exhibiting in tents, for each day and evening, fifty dollars.

For all other shows, amusements and exhibitions, embraced within the provisions of said section, such sums as the City Council shall determine at the time of the application for the license.

Every license granted as aforesaid shall (if required by the City Council) be upon condition that one or more police officers, to be paid by the licensee, be assigned to duty at the place of such exhibition, for the keeping of order thereat.

Provided, however, that no such license shall permit entertainment for gain and reward upon the Lord's day, or exhibitions of wrestling or sparring upon any day, unless the particular exhibition or entertainment shall be petitioned for, and the license therefor granted by a two-thirds vote of the City Council.

The Mayor, President of the Council, Commissioner of Public Works and Committee on Licenses shall have the right to visit at all times such places of amusement as are licensed under the provision of this ordinance.

HACKNEY CARRIAGES AND JOBBING WAGONS.

SEC. 4. No person shall set up, use, or drive in the city of Quincy, any hackney carriages for the conveyance of persons for hire from place to place within said city without a license therefor from the City Council.

SEC. 5. The City Council may, from time to time, grant licenses to such persons as they deem expedient, to set up, use, or drive hackney carriages for the conveyance of persons for hire from place to place within the city, and may establish the fare therefor, and may revoke such licenses at their discretion. Every person so licensed shall pay to the City Clerk for the use

of the city the sum of one dollar for each carriage so licensed. All such licenses shall expire on the first day of May next after the date thereof, and shall be recorded by the City Clerk before being delivered to the licensee.

Provided, That such licenses may be granted in April, to take effect on the first day of May next ensuing.

SEC. 6. No license granted as aforesaid shall apply to any carriage except the particular one designated therein by number, or otherwise made certain, or shall be transferable without the consent of the City Council, endorsed thereon by the City Clerk.

SEC. 7. Every person licensed as aforesaid shall cause his carriage to be conspicuously marked with the license number, in figures not less than one and a half inches long. The name of the licensee, and the number of the carriage, together with the rates of fare, shall be conspicuously posted on a printed card in every such carriage.

SEC. 8. The fare for the conveyance of passengers in hackney carriages shall not exceed the following rates, to wit: For conveying one or more passengers, over twelve years of age, from one place to another within the city, not more than one mile, twenty-five cents each, except between the hours of 10 P. M. and 6 A. M., when double said rates may be charged; for a distance more than one mile, special rates may be made. For each child between the ages of four and twelve years, but one-half of the above rates shall be charged; and for children under four years of age, accompanied by their parent or guardian, there shall be no charge.

SEC. 9. Every coach or other vehicle, whether on wheels or runners (except street cars), drawn by one or more horses, or other animal power, which shall be used in the city of Quincy for the conveyance of persons for hire from place to place therein, shall be deemed to be a hackney carriage within the meaning of this ordinance.

SEC. 10. The City Council may grant licenses to such persons as they deem expedient to employ or use any wagon, cart sleigh or other vehicle which may be necessary for the convey-

ance from place to place within the city, for hire, of any goods wares, furniture or rubbish, and no person shall use any of the vehicles mentioned in this section, for the purpose herein specified, without a license as aforesaid. Every person licensed under this section shall cause his name to be placed in plain, legible words on any such vehicle he shall use, and every such license shall expire on the first day of May then next ensuing, unless sooner revoked. Every person so licensed shall pay to the City Clerk, for the use of the city, one dollar for each vehicle so licensed.

DEALERS IN JUNK AND SECOND-HAND ARTICLES.

SEC. 11. The City Council may license suitable persons to be dealers in and keepers of shops for the purchase, sale or barter of junk, old metals or second-hand articles, at such places within the city as may be designated in such licenses, under such conditions and restrictions as are hereafter prescribed, which shall be incorporated in every such license. Such license shall continue in force until the first day of May then next ensuing, unless sooner revoked, provided that such license may be granted in April, to take effect on the first day of May next ensuing. The licensee shall pay to the City Clerk for the license, for the use of the city, two dollars.

SEC. 12. Every keeper of a shop licensed as aforesaid, shall keep a book in which shall be written at the time of every purchase, a description of the junk, old metal or second-hand articles so purchased, the name, age and residence of the person from whom, and the day and hour when such purchase was made. Such book shall at all times be open for inspection of the Chief of Police, and of any member of the City Council. Every keeper of such shop shall put in some suitable and conspicuous place on his shop a sign having his name and occupation legibly inscribed thereon in large letters. Such shops, and all articles of merchandise therein, may at all times be examined by the Chief of Police or any member of the City Council. No keeper of such shop shall directly or indirectly either purchase or receive by way of barter or exchange any of the articles

aforesaid of a minor or apprentice, knowing or having reason to believe him to be such, and no article purchased or received shall be sold until a period of at least one week from the date of its purchase or receipt has elapsed, unless the name and address of the person to whom such article has been sold, with other facts as may be necessary to facilitate the tracing of such article, have been entered on the book mentioned in this section.

SEC. 13. No wagon shall be used for the collection of junk, metal, rags or second-hand articles, unless licensed by the City Council. Every such wagon shall bear conspicuously the owner's name, and the number of the license on the outside and on each side. Every license shall designate the person employed to drive such vehicle. Such driver shall not be changed without the consent of the Mayor.

SEC. 14. It shall be the duty of the City Clerk to keep a record of the name and residence of every pedler licensed by the city, together with the number of the vehicle used in his business, and of the particular business for which his license is granted; a list of dealers in articles mentioned in this ordinance, and of the places wherein the business is to be carried on; and also a list of all persons employed by any such pedler or dealer in the peddling or collecting of any such articles.

SEC. 15. Whoever, not being so licensed, keeps such shop, or is such dealer in any place or manner than that designated in his license, or after notice to him that his license has been revoked, and whoever violates any rule, regulation or restriction contained in his license shall forfeit a sum not exceeding twenty dollars for each offence.

GUNPOWDER AND EXPLOSIVE COMPOUNDS.

SEC. 16. No person shall keep or deposit any gunpowder within the city, unless it is well secured in tight casks or canisters; or keep or deposit more than fifty pounds of gunpowder in any shop, store or other building which is within the distance of twenty-five rods from any other building or wharves; or keep or deposit more than twenty-five pounds of gunpowder

in any shop, store or other building; which is within the distance of ten rods from any other building; or keep or deposit more than one pound of gunpowder in any shop, store or other building which is within ten rods of any other building, unless it is well secured in copper, tin or brass canisters, holding not exceeding five pounds each, and closely covered with copper, brass or tin covers.

Provided, That this section shall not apply to magazines for the storage of powder at quarries.

SEC. 17. The City Council may license persons to sell gunpowder. Every such license shall continue in force one year from the date thereof, unless sooner revoked, and shall set forth the name of the person licensed, and the building or place in the city where the business may be carried on, and shall have the provisions of this ordinance relating thereto printed thereon, and there shall be paid therefor to the Clerk for the use of the city the sum of one dollar. The City Clerk shall record all such licenses, and the place of business named therein shall not be changed without the consent of the City Council.

SEC. 18. Every person so licensed shall keep a sign over the outside of the principal entrance from the street of the building in which the powder is kept, on which shall be printed in capitals the words, "Licensed to keep and sell Gunpowder;" and every person owning or keeping gunpowder above the quantity of five pounds within the city shall forthwith notify the Chief Engineer of the Fire Department where the same is kept, and shall comply with any directions of said Engineer respecting the part of the building assigned by him for its future keeping or storage.

SEC. 19. No person shall keep for sale or sell any gunpowder within the city without a license from the City Council.

SEC. 20. No person, except on military duty in the public service of the United States or of this Commonwealth, shall keep, have or possess, in any building, place or vehicle, within one rod of a dwelling house, any explosive compound other than gunpowder in quantity exceeding one-fifth of a pound.

Provided, That the City Council may license any suitable

person to keep, store and sell such compound, in accordance with the foregoing provisions.

SEC. 21. Any member of the Police or Fire Department may enter the building or premises of any person licensed to sell explosive compounds, and examine and ascertain if the laws, rules and regulations relating thereto are strictly observed, and on alarm of fire may cause the explosive compounds there deposited to be removed or destroyed, as the case may require.

SEC. 22. The City Council may license any suitable person to keep for sale and sell any of the fireworks called rockets, crackers, squibs or serpents. Such licensee shall pay for the license to the City Clerk for the use of the city the sum of two dollars and such license shall continue in force until the first day of May then next ensuing, unless sooner revoked.

SEC. 23. No person shall within the city sell or offer for sale, or have in his possession with intent to sell, any toy pistol in which explosive compounds are used, or of which such compounds form a part, without a license from the City Council; and no person shall in any public street, public place, or within any grounds or buildings belonging to or in use of the city, use, discharge or set fire to any toy pistol, toy cannon, or any other toy in which explosive compounds are used. The City Council may license any suitable person to keep for sale and sell such toy pistols as aforesaid. Such licensee shall pay for the license to the City Clerk, for the use of the city, the sum of two dollars, and such license shall continue in force until the first day of May then next ensuing, unless sooner revoked.

SEC. 24. *Camphene, Naphtha, etc.* No person shall keep for sale or sell in any building within the city any camphene, naphtha, burning fluid, or other similar explosive or inflammable fluid without a license from the City Council; said Council may grant such licenses. The licensee shall pay therefor to the City Clerk, for the use of the city, the sum of two dollars. All such licenses shall continue in force until the first day of May then next ensuing, unless sooner revoked.

SEC. 25. Any person violating any of the provisions of this ordinance shall forfeit and pay for each offence a sum not exceeding twenty dollars.

No. 13.

AN ORDINANCE CONCERNING TELEGRAPH, TELEPHONE, AND OTHER ELECTRIC WIRES.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The City Council shall have the exclusive power to license the erection and maintenance of telegraph, telephone and other electric lines of wires within the city. Whenever they are applied to for a location for such lines they shall, if they grant the same, first determine the streets through which said line shall run, and shall then require the company or person so applying to furnish a plan of the streets so designated therefor, upon a scale of not less than 150 nor more than 200 feet to the inch; and the City Council shall then determine and specify on said plan where each post may be located and shall thereupon issue to the party applying therefor a certificate specially enumerating the streets where the lines may run, and the location of each post thereon, as exhibited on said plan, the kind of posts, the height at which all wires must be placed, and the dimensions and location of the underground conduit, if said lines or any part thereof shall be laid under ground. Said plan and a copy of said certificate shall be filed in the office of the City Clerk; and the construction of the line shall conform thereto in every particular, and any post placed otherwise than as therein designated shall be forthwith removed. Any license granted hereunder shall be subject to the right of the city, free of charge, to place its fire alarm telegraph or other electric lines upon the posts or through the conduit so licensed to be maintained; and to the right of the city to license the location of lines by any other person or company upon said poles and through said conduits, upon payment to the owner thereof of a reasonable compensation, to be determined by the parties, and they failing to agree, it shall be determined by the Mayor. Whenever a location is granted upon posts already erected, a plan of the streets so traversed need not be required.

SEC. 2. All corporations, companies and individuals licensed to erect poles and fixtures shall first, before procedure, give to the city an agreement in writing satisfactory to the City Solicitor, saving harmless said city against any and all claims for damages, costs, expenses or compensation for, on account of, or in any way growing out of, the erection, maintenance or use of said poles on said streets.

SEC. 3. Every such line of wire along or across streets, ways, or other public places, shall be placed underground, or at a height not less than twenty feet from the ground, except under bridges, upon suitable poles, or from building to building, except that such electrical conductors and fixtures as may be required in the construction, maintenance and operation of electrical railways may be not less than eighteen feet from the ground. Every such line of wire shall be so constructed, placed and maintained as not to interfere with any other line, nor with the operation of the fire alarm telegraph; and all unused lines of wire shall be forthwith removed. Except for street railway purposes, no more than one line of posts or one conduit shall be maintained in any street; and no tree upon any street or other public place shall be cut or trimmed to make room for such wires, without the consent of the Commissioner of Public Works.

SEC. 4. Every employee, official or agent in the employ of any telegraph, telephone or electric company, who desires access to any premises within this city, upon business of the company, appertaining to the repairing or laying of lines over, through or along said premises, shall be furnished by the company with a certificate of his authority to act therefor, and shall not enter upon said premises without first exhibiting such certificate to the owner or occupant thereof, and receiving permission to so enter.

SEC. 5. The posts shall be kept well painted, of a uniform color, to the satisfaction of the Commissioner of Public Works; and the name of said company shall be distinctly painted or imprinted on the cross-bar used and occupied by said company, on said posts; and the location of any posts, when once erected, shall not be changed without the permission of the Commissioner of Public Works.

SEC. 6. The city shall have the exclusive use of the upper cross-bar, and the top of each post, free of cost, for the purpose of placing wires thereon; said cross-bar shall be a four-pin cross-bar, of not less than five feet in length, and shall be placed at not less than three feet from the cross-bar next to it.

SEC. 7. The Chief Engineer of the Fire Department shall have the supervision of all telegraph, telephone and other electric lines of wires within the city, and shall see that all laws and ordinances in relation thereto are enforced.

SEC. 8. Whoever violates any of the provisions of this ordinance shall forfeit and pay a fine not exceeding twenty dollars for each offence.

AN ORDINANCE CONCERNING THE BOARD OF
MANAGERS OF THE WOODWARD FUND AND
PROPERTY.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. A Board of Managers of the Woodward Fund and Property is hereby established.

SEC. 2. Said Board shall consist of the Mayor, City Treasurer, City Clerk and Auditor of Accounts, and one citizen, not a member of the Council, to be elected by ballot by the City Council in the month of January.

SEC. 3. Said Board shall have the management of said fund and property, and exercise all the powers and duties of the government of the City of Quincy in relation thereto, as prescribed by the last will and testament of Ebenezer Woodward, deceased.

SEC. 4. Said Board may make such rules and regulations for their own government, and for the government of all subordinate officers in their department, as they deem expedient.

AN ORDINANCE CONCERNING STREETS AND PUBLIC GROUNDS.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. No person, unless authorized by law, shall break or dig up any part of any street or square or erect thereon any staging for building, or place thereon any lumber, brick or other building materials without a written license from the Commissioner of Public Works. Any person intending to erect or repair any building upon land abutting on a street, shall give notice to the Commissioner of Public Works, who may, at the owner's request, set apart such portion of the street as they shall deem expedient for such use. Such person shall, before the expiration of his license, remove all rubbish, and restore such street, square or park to its former condition, to the satisfaction of the Commissioner of Public Works. Every person so licensed shall, in writing, agree to indemnify the city against all damage or loss to the city, accruing from the doing of any act or thing under such license, and sureties may be required by the Commissioner of Public Works, and every person who, when so licensed, shall obstruct or render unsafe any public street, square or sidewalk, shall guard the same by a proper fence or railing, and by lights during the night time, subject to the approval of the Commissioner of Public Works. Such license may be revoked at any time by the Commissioner of Public Works or by the City Council.

SEC. 2. If a person shall dig a cellar, or other cavity, in the ground near to or adjoining any street, he shall, so long as the Commissioner of Public Works may require, keep a railing or fence on or near the line of such street, sufficient to protect travellers from falling into the place so dug, or being injured thereby.

SEC. 3. No person shall make or cause to be made, any aperture in or under any street or sidewalk, which can interfere

with the rights or control of the city therein, constructing coal-holes, or receptacles for any other articles, or for light and air, or for any other purpose, without a license from the Commissioner of Public Works; and no person shall leave such coal-hole open or unfastened except while actually in use.

SEC. 4. No person shall place or maintain over any street or sidewalk any sign, awning, shade or other obstruction, unless the same is safely and securely supported, and is not less than eight feet from the ground at its lowest part; and such awning, if built over a sidewalk, shall extend as far as the outside edge thereof.

SEC. 5. No person shall suffer his building to shed water upon any street or sidewalk in this city, to the injury or inconvenience of passengers, nor allow any sink water, or other impure water, to run from the house, barn or lot occupied by him or under his control into any highway or public place.

SEC. 6. No person shall place or cause to be placed or deposited, upon any street, sidewalk or other public place in this city, merchandise, ashes, shavings, house-dirt, filth, offal, or rubbish, which shall in any way obstruct and disfigure the same; nor suffer his wood and coal to remain unnecessarily on any street or sidewalk. And no person shall saw or split wood, or pile the same on any sidewalk; *provided*, that ashes may be placed in the streets for collection, in such manner and on such days as the Board of Health may direct.

SEC. 7. No person shall place or keep any table, stall, booth, or other structure in any street or sidewalk, nor place or keep the same in any of the public grounds of the city, for the sale of fruit or other things, without permission in writing from the city officer or board having the same in charge.

SEC. 8. No person shall climb, peel, deface or injure any ornamental or shade tree, shrub or vine growing in any of the streets or public grounds of the city, without a permit in writing from the board of officers having such street or public ground in charge; and no person shall tie or fasten any horse, mule or team of any kind to any ornamental or shade tree, shrub or vine, or to any fence or other structure erected for the protection of

such tree, shrub or vine, in any street or public place in the city or in any way injure or deface the same.

SEC. 9. No person shall suffer any horse, mule or team of any kind, belonging to him or in his charge, to remain standing in any street or public place in the city, not in the care of some competent person, without being properly weighted, or securely fastened to some post or immovable thing, not prohibited in the previous section, nor suffer such horse, mule or team to go at large in any such street or public place, without a rider or driver.

SEC. 10. No person, being the owner, keeper, or having the custody of any horse, cow, or other animal, shall permit or suffer the same to pasture, with or without a keeper, upon any street, sidewalk, or any public ground in this city, or to go at large therein, nor suffer such horse, cow, or other animal to go, or remain upon any sidewalk in said city.

SEC. 11. No person shall stop with any team or carriage in or on any street in this city, in such a manner as to hinder or obstruct the travel over such street, nor at the side of, or so near to another team as to obstruct public travel.

SEC. 12. No person shall stop with any team or carriage, or place any obstruction of any kind upon any flag or stepping stone, or other foot-walk across any street in this city.

SEC. 13. No person shall ride in any carriage, or drive any horse or horses in any street in this city at a rate of speed exceeding eight miles per hour, nor in such a manner as to endanger or unreasonably inconvenience passengers on said streets.

SEC. 14. No person shall drive any horse, cart or carriage, or wheel, push, or draw any wheelbarrow, handcart, or other vehicle, or ride any bicycle or tricycle on the sidewalk of any street of this city, except for the purpose of crossing such sidewalk, in order to go in or out of some adjoining enclosure; *provided*, that this section shall not apply to children's or invalid's carriages propelled by hand.

SEC. 15. No person shall coast or slide down, across, or along any of the streets or sidewalks of this city, upon any sled, board, or other vehicles for coasting or sliding, except in such

places and under such restrictions as the Commissioner of Public Works or City Council may designate and require.

SEC. 16. No person shall stand, or remain alone, or with or near others in any street in this city, in such a manner as to obstruct a free passage for passengers therein, or over any foot-way or sidewalk ; nor shall any person sit or lounge upon any fence or post in front of or enclosing any of the public grounds of this city.

SEC. 17. No person shall wilfully injure, mar, deface or destroy any fence, signboard, guideboard, awning, lamp-post, lamp, or lantern in any street or public place in this city ; and no person shall light or extinguish any public lamp in any street or public place, except by virtue of a contract with the city, or permission from the Commissioner of Public Works.

SEC. 18. No person shall, in any way, injure any of the drinking fountains and watering-troughs in the streets and public grounds of the city, nor throw or place any substance into the same.

SEC. 19. No person shall make, write, print or post any indecent or obscene marks, words, figures or signs upon any fence, building, post, tree or other object exposed to public view, nor, without a license from the Commissioner of Public Works first obtained, post up any placards, show-cards, hand-bills or posters upon any tree, post or buildings, within any street or public places in the city, or upon any buildings, structure, or land belonging to the city.

SEC. 20. No person shall ring, or cause to be rung, any bell or use, or cause to be used any horn or other instrument to give notice of his business or calling, or to sell any articles, unless licensed by the Commissioner of Public Works.

SEC. 21. No person shall walk, stand, or lounge upon any portion of any street or public grounds in the city especially prepared and devoted by the officers in charge thereof to the growing of grass or flowers, nor in any way dig up, injure or deface the same.

SEC. 22. No person shall expose himself in swimming or bathing in the day time, in any of the ponds, streams, or waters,

within the limits of the city, in view of spectators from any street, public ground, dwelling house, railroad or steamboat, unless properly clothed.

SEC. 23. No person shall behave himself in a rude or disorderly manner, nor use indecent, profane or insulting language in any street, public place, or public building in this city, nor be or remain upon any door step, portico or other projection from any such building, nor in any public hall, or entrance thereto, to the annoyance or disturbance of any person; nor shall any person wilfully frighten any horse or other animal, nor engage in game, sport or amusement in any street of the city, whereby the free, safe, and convenient use thereof, by travellers thereon, shall, in any way be interrupted, or the occupants of adjoining estates unreasonably annoyed and disturbed.

SEC. 24. No person shall take hold of, or ride upon any carriage or sleigh, or other vehicle, while the same is passing through any street or public place of the city, without the consent of the owner or driver thereof.

SEC. 25. In case of fire, the Fire Department, its officers and members, with their horses, machines, and equipments, shall have the right of way in the public streets and ways of the city, as against all other persons, vehicles, or animals, and no person shall hinder or obstruct them in the free passage therein, nor drive over any hose belonging to the Fire Department, with any carriage, or other vehicle, nor remove, injure, or in any manner disturb the members thereof, their horses, machines, hose or equipments, when stationed, located, or laid in any such public street, except under the direction of the officer in command thereat.

SEC. 26. No person shall move any building through any street in the city, unless by authority of a license from the Commissioner of Public Works, and under such restrictions as said Commissioner may see fit to prescribe.

SEC. 27. The City Council may order all buildings fronting on any public street or way to be numbered in regular succession, and may, in such order, determine the character of the numbers to be affixed, and the place, order and succession

thereof. The owner or occupant of any building, subject to such order, shall, within thirty days after being notified of the same, comply therewith.

SEC. 28. No person shall fire or discharge any gun or pistol, or other firearms, in or across any of the streets or public places within the city; but this section shall not apply to the use of such weapons at any military exercise or review, under the authority of a commissioned officer of the militia, nor in the lawful defence of the person, family or property of any citizen, or in the performance of any duty required by law, nor to any person firing a salute by leave of the Commissioner of Public Works.

SEC. 29. The owner or person having the care of any building so located, abutting upon or near to any public street or way, that snow or ice may fall from the roof thereof, shall cause all snow and ice to be removed from said roof within twenty-four hours after the same shall cease falling or forming.

SEC. 30. Whenever the word "street" or "streets" is used in this ordinance, it shall be understood as meaning to include lanes, alleys, courts, public squares, and sidewalks, unless otherwise expressed.

SEC. 31. No person shall sing or play or perform on any musical instruments in the streets or public places of the City of Quincy, except in connection with a funeral, military parade or a procession of a political, civic or charitable organization, for which a police escort is provided, unlicensed thereto by the Commissioner of Public Works.

SEC. 32. Whoever drops or lets fall or permits or allows to drop or fall, upon any way or highway of the city, from any wagon, cart or vehicle, any piece of stone or granite, or other article of such a size or character as may endanger public travel, unless the same be immediately removed from the limits of the way or highway, shall be liable to a penalty of not more than twenty dollars for each offence.

SEC. 33. Whoever violates a provision of any ordinance of the city, shall, unless other provision is expressly made, be liable to a penalty of not more than twenty dollars for each offence.

 AN ORDINANCE CONCERNING SALARIES.

Be it ordained by the City Council of Quincy, as follows :

SEC. 1. The compensation to be paid the several officers mentioned in this section, for each municipal year, shall be fixed at the annual rates herein set forth, and shall be payable in equal monthly instalments, from the appropriations made for the payment of the salaries of city officers, to wit :

City Treasurer	\$1200 00
City Solicitor	700 00
City Auditor	600 00
City Physician	300 00
City Messenger	250 00
City Clerk	1200 00
the fees and emoluments of the office to be paid into the city treasury.	
Commissioner of Public Works	2000 00
he to furnish his horse and carriage, and pay for its keeping.	
Tax Collector	600 00
and five per cent. on all single poll taxes collected before the first day of January.	
Overseer of the Poor	400 00
and his expenses incurred in visiting the poor outside of the city, to be paid by the city.	
Chief Engineer of Fire Department	400 00
Clerk of Council	200 00
Principal Assessor	600 00
Six Assistant Assessors, each	350 00
Three members of the Board of Health, each	150 00
Clerk to Board of Health	50 00
Inspector of Milk	150 00
Inspector of Animals and Provisions	300 00
Clerk of Committees, (Council)	300 00

Inspector of Plumbing, \$3.00 per building requiring plumbing.

SEC. 2. The compensation to be paid the several officers mentioned in this section shall be fixed at the sum herein set forth and paid from the appropriations made for the payment of the salaries of city officers, to wit:

Four Registrars of Voters, each .	100 00	per	annum
Scaler of Weights and Measures .	15 00	"	"
Ward clerks	7 50	per	day
Deputies	1 50	"	"
Wardens	7 50	"	"
Deputies	1 50	"	"
Inspectors	7 50	"	"
Deputies	1 50	"	"

AN ORDINANCE CONCERNING THE GRADE OF
CELLARS.

Be it ordained by the City Council of Quincy, as follows :

SEC. 1. Before the construction of any cellar is commenced a notice in writing shall be sent to the Commissioner of Public Works.

SEC. 2. No cellar shall hereafter be built or dug, the bottom of which is below a grade approved by the Commissioner of Public Works.

AN ORDINANCE CONCERNING THE INSPECTION AND SALE OF MILK.

Be it ordained by the City Council of Quincy, as follows :

SEC. 1. The Mayor shall annually, on or before the first Monday in February, appoint an Inspector of Milk, who shall be a resident of Quincy, and who shall hold his office one year from the first Monday in February of the current year and until his successor is appointed. He shall receive such compensation as the City Council may determine.

SEC. 2. He shall keep an office and books for the purpose of recording the names and places of business of all persons engaged in the sale of milk within the city. He may enter all places where milk is stored or kept for sale and all carriages used for the conveyance of milk, and when he has reason to believe that any milk found by him is adulterated he shall take specimens thereof and cause the same to be analyzed or otherwise to be satisfactorily tested, and shall make a record of the result of such analysis or test and preserve such record as evidence.

SEC. 3. Every person who conveys milk in carriages or otherwise, for the purpose of selling the same in the city, shall annually in the month of May, be licensed by the Inspector in accordance with the provisions and subject to the penalties of the Public Statutes, to sell milk within the limits of the city, and shall pay to the Inspector fifty cents to the use of the city.

Every person who sells milk, or offers it for sale in any store booth, stand, or market place in the city, shall register in the books of the Inspector and shall pay to him fifty cents to the use of the city. The Inspector shall pay over monthly to the City Treasurer all sums collected by him.

SEC. 4. It shall be the duty of the Inspector to institute a complaint for a violation of any of the provisions of the Statutes concerning inspection and sale of milk upon evidence satisfactory to him upon which to sustain such complaint.

SEC. 5. The Inspector shall cause the name and place of business of every person convicted of selling adulterated milk, or having the same in his possession with intent to sell, to be published in two newspapers in the city or county.

SEC. 6. The Inspector shall annually, at the end of each fiscal year, present to the Mayor a report, giving a statement of the service rendered by him.

AN ORDINANCE CONCERNING THE BOARD OF
HEALTH.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The Board of Health is hereby authorized to choose by ballot a Clerk, who must receive a majority vote of the Board, and who shall receive a salary of fifty dollars per year for his services.

AN ORDINANCE CONCERNING TRUANTS.

Be it ordained by the City Council of Quincy, as follows :

Any minor between the ages of seven and fifteen years, convicted of being an habitual truant, or of wandering about the streets or public places, having no occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School or to the County Truant School, for such time, not exceeding two years, as the Justice of the District Court of East Norfolk may determine.

AN ORDINANCE ESTABLISHING A POLICE DEPARTMENT FOR THE CITY OF QUINCY.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. A Police Department is hereby established which shall consist of a Chief of Police and eight patrolmen, and no person shall be appointed a member of the police department who does not sustain a good moral character, and except the chief, who is not a citizen of Quincy.

SEC. 2. The Chief of Police shall be responsible for the discipline, good order and proper conduct of the men constituting the department, and for the good condition of all the property connected with the department. He shall be subject to all the provisions of the City Charter, and shall enforce the rules and regulations established by the City Council for the government of the department.

SEC. 3. The Chief of Police shall keep a roll of the members of the department specifying the name, age, residence, date of admission and discharge of each member of the same, and shall keep an accurate account of all property belonging to it. He shall make to the Mayor annually, and oftener if required, a detailed report of the condition of the department, and shall keep a record of all the business of the same and of all prosecutions instituted by it before the courts.

SEC. 4. All fines and penalties incurred for violation of the by-laws and ordinances shall be collected by the Chief of Police, and these, with all fees in any criminal case, or for service of any criminal process, or for any service in behalf of the city received by him or by any member of the police force shall be paid into the City Treasury.

All moneys received by any member of the police department as above shall be paid to the Chief of Police.

All sums of money received by the City Treasurer under

this section shall be placed by him to the credit of the police department.

SEC. 5. The Chief of Police shall on the last day of each week prepare a pay-roll of all permanent men employed in the department and present it to the Auditor for certification.

SEC. 6. Salaries paid to the Police Department shall be as follows: Chief of Police, \$1,000 per year, payable in equal monthly instalments; Patrolmen each, \$16 per week.

SEC. 7. Whenever by reason of sickness or absence from the city or other cause, the Chief of Police shall be disabled from performing the duties of his office, the Mayor shall designate by a writing filed in the office of the City Clerk some other member of the department to act as and perform the duties of Chief of Police, during such disability, and no longer.

SEC. 8. The Chief of Police may establish rules and regulations for the government, disposition, and management of the police department consistent with the laws of the Commonwealth and with the ordinances of the city, subject to the approval of the Mayor.

SEC. 9. City Ordinance No. 19, being an ordinance establishing the office of Deputy Manager of Police and defining the duties of the incumbent thereof, is hereby repealed.

AN ORDINANCE CONCERNING THE BOARD OF
WATER COMMISSIONERS AND DEFINING THEIR
DUTIES.

Be it ordained by the City Council of Quincy, as follows:

SECTION 1. The Board of Water Commissioners shall at their first meeting on or after the first Monday of February in each year, or as soon thereafter as may be, choose by ballot from among their members a Chairman and a Secretary, who shall keep a record of their proceedings; and they may make such regulations for their own government in relation to all their officers as may be deemed expedient.

SEC. 2. Said Board shall appoint a Superintendent of the Water Works and such subordinate officers, agents and assistants as may be found necessary, and which said Board is hereby authorized to appoint. And all such officers, agents and assistants shall hold their respective offices or situations during the pleasure of said Board, and they shall perform such duties respectively as the Board shall assign, and receive such compensation as the Board, in the absence of any order of the City Council in relation thereto, shall from time to time determine.

SEC. 3. Said Board shall have full power to purchase necessary supplies, to make repairs and connections and locate and erect hydrants, and the streets when broken up shall again be put in good condition to the satisfaction of the Commissioner of Public Works, by and under the direction of the Board.

SEC. 4. Said Board shall determine and assess semi-annually the water rates, payable to the City Treasurer at his office, and may make abatements in all proper cases, and shall have power to establish rules and regulations for the inspection, material, construction, alteration, and use of water pipes and water fixtures connected with the water supply of the city.

SEC. 5. Said Board may sell such of the personal property

connected with the water works as they may deem expedient, subject to the written approval of the Mayor.

SEC. 6. Said Board shall keep a suitable set of books which shall be open at all times to the inspection of the Committee on "Water Supply" of the City Council.

SEC. 7. Said Board shall annually, in the month of January, present to the City Council a report to and including the thirty-first day of December of the preceding year, containing a full statement of the doings of the department, of the condition of the water works, and such other matters as they may deem proper.

SEC. 8. The City Treasurer shall receive and collect all water rates and any other income, and place the same to the credit of the Water Department.

SEC. 9. All demands against the city for the account of the Water Department shall be examined by said Board, and when approved by them shall be certified by the Auditor if found correct and placed in the hands of the City Treasurer for payment.

SEC. 10. All bills for water, including the minimum charge for water furnished by meter, shall be due and payable to the City Treasurer in advance on the first day of January and July. Bills for specific supplies and charges for putting in of service pipes shall be due before the water is let on. In case of non-payment of said water rates for thirty days after the same are due, the Board of Water Commissioners may cause a printed demand to be left at the premises where the water is taken; and unless the said water rates are paid within ten days thereafter, the Board shall cut off the supply of water. The water shall not be let on until the amount due together with two dollars for shutting off and letting on is paid. In case of non-payment of water rent, the owner of the premises, whether he is the occupant or not, shall be required to pay the same and all charges connected therewith, provided he has been duly notified. Said Section 10 shall be printed upon every bill for water rent.

No. 27.

AN ORDINANCE ESTABLISHING THE OFFICE OF
CLERK OF COMMITTEES, AND DEFINING HIS
DUTIES AND AMOUNT OF SALARY.

Be it ordained by the City Council of Quincy, as follows:

SECTION 1. The office of Clerk of Committees is hereby established.

The City Council shall annually in the month of January and whenever a vacancy occurs in said office, elect a Clerk of Committees, who shall hold his office until his successor is elected, and shall receive the sum of \$300 (three hundred dollars) per annum for his services.

SEC. 2. The Clerk of Committees shall attend all regular and special meetings of the City Council.

SEC. 3. He shall serve as clerk to all regular and standing committees of the Council except the Committee on Finance.

SEC. 4. He shall receive all orders and documents referred to the committees, from the Clerk of the Council, and shall notify all members of all regular or special committees, of meetings of said committees.

SEC. 5. He shall keep a full and complete record of all meetings of committees; such records shall be accessible to members at all times.

SEC. 6. He shall prepare for each committee all reports, orders and resolutions to be reported to the Council.

SEC. 7. He shall return all reports, orders and resolutions to the Clerk of the Council.

AN ORDINANCE REGULATING PLUMBING IN THE CITY OF QUINCY.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. No person shall carry on the business of plumbing unless he is a plumber and shall have first registered his name and place of business in the office of the Board of Health; and notice of any change in the place of business of a registered plumber shall be immediately given to said Board of Health.

SEC. 2 Every plumber before doing any work in a building, shall, except in the case of the repair of leaks, file at the office of the said Board of Health, a notice of the work to be performed, and no such work shall be done in any building without the approval of said Board of Health or its Inspector of Plumbing.

SEC. 3 The plumbing of every building shall be separately and independently connected with the public sewer, when such sewer is provided, or with a proper and sufficient drain connected thereto outside of the building, and if no sewer is provided, with a proper cesspool.

SEC. 4. Pipes and other fixtures shall not be covered or concealed from view until approved by the Board of Health, or the Inspector appointed by them, who shall examine the same within two working days after notice that they are ready for inspection.

SEC. 5. Plumbing work shall not be used unless the same has first been tested in the presence of the Board of Health or its Inspector with the water test, or if that is not practicable, with the peppermint or other reliable test, and approved by them or him in writing.

SEC. 6. Drain and connecting ventilating pipes shall be of sufficient size, and made of cast-iron within the building, and

for a distance of at least ten feet outside, except that lead pipes may be used for short connections exposed to view. Such pipes shall be of uniform thickness throughout, and shall have an average weight not less than below specified, viz:—

2-inch pipe,	$3\frac{3}{5}$ pounds per foot.
3 " "	5 " " "
4 " "	$6\frac{2}{5}$ " " "
5 " "	$8\frac{2}{5}$ " " "
6 " "	$10\frac{2}{5}$ " " "
7 " "	13 " " "
8 " "	17 " " "

Drain pipes shall be properly secured by irons to walls, laid in trenches to uniform grade, or suspended to floor timbers by strong iron hangers. Every drain pipe shall be supplied with a suitable trap, placed with an accessible clean-out, at or near the point where it leaves the building, and shall have a proper fall. Drain pipes shall be carried above the roof open and undiminished in size, and to a sufficient height, not less than five feet above the top of any window within fifteen feet. Changes in direction shall be made with curved pipes, and all connections with horizontal or vertical pipes shall be made with Y branches; all drain pipes shall be exposed to sight where practicable within the building, and shall not be exposed to pressure where they pass through walls. Every part of every drain pipe below a cellar floor shall be accessible through sufficient unattached covers.

SEC. 7 The water pipe of each and every sink, basin, bath tub, water closet, slop-hopper, and of each set of trays or other fixtures shall be furnished with a separate trap, which shall be placed as near as practicable to the fixture that it serves. Traps shall be protected from siphonage or air pressure by special cast-iron air pipes of a size not less than the waste pipes they serve, placed outside or below the trap. Lead air pipes may be used only where they are exposed to view. Air pipes for water closet traps shall be of two-inch bore if thirty feet or less in length, and of three-inch bore if more than thirty feet in length. Air pipes shall be run as direct as practicable. Two or more

air pipes may be connected together or with a drain pipe ; but in every case of a connection with a drain pipe such connection shall be above the upper fixture of the building.

SEC. 8. Any person violating any provision of this ordinance shall be subject to a fine not exceeding fifty dollars for each and every violation thereof, and his license may be revoked by the Board of Examiners of Plumbers.

SEC. 9. No section of this ordinance shall apply to any plumbing put into any building before the passage of this ordinance.

No. 29.

AN ORDINANCE RELATING TO THE MANNER OF
EXECUTING TRANSFERS OF THE CITY'S IN-
TEREST IN REAL ESTATE.

Be it ordained by the City Council of Quincy, as follows :

SECTION 1. The Mayor may execute in behalf of the city all conveyances, leases, and other instruments to be executed by the city : but this provision shall not be construed to prevent any officer from executing any conveyance, lease, or other instrument in performing the duties devolving upon him.

SEC. 2. The Mayor may, upon payment to the City Collector of the amount due on the mortgage of an estate mortgaged to the city, discharge or release the mortgage, or assign the same without liability of, or recourse to, the city, and may execute and deliver in behalf of the city all legal instruments that may be necessary for said purpose.

SEC. 3. The Mayor may, upon payment to the City Collector of the amount due on an estate sold to the city for non-payment of taxes or other assessment, execute and deliver in behalf of the city any and all legal instruments that may be necessary to transfer the city's title to such estate.

Law Department.

Hon. William A. Hodges, Mayor of the City of Quincy :

SIR :—When appointed by you to the office of City Solicitor February 1, 1894, I found the following actions against the City of Quincy pending in different courts of the Commonwealth :

Thomas D. Pierce vs. the City of Quincy.

Commonwealth of Massachusetts vs. Cities of Quincy and Boston.

Peter Cunniff vs. City of Quincy.

John A. McDonald vs. City of Quincy.

Thomas W. Smith vs. City of Quincy.

William S. Williams vs. City of Quincy.

In Pierce vs. Quincy, the City had secured a verdict in its favor in the Superior Court at Dedham, from which, however, the plaintiff appealed to the Supreme Judicial Court on exceptions. I carried out an agreement made by my predecessor in office, John W. McAnarney, Esq., with the plaintiff's counsel, whereby the exceptions were withdrawn and the case disposed of, by paying the plaintiff's costs to the extent of \$75.

The second case was an action brought in the name of the Commonwealth to fix the liability as between the cities of Quincy and Boston for the care and maintenance of one Henrietta Melvin, a person alleged to be of feeble mind, now cared for by the State. The case is still pending in the Superior Court at Boston.

The Cunniff case was one of long standing. A brief description of it will be found in Mr. Hayes' report of 1891. The damage done to Mr. Cunniff's premises by reason of the change of grade of Hancock St. was one of peculiar hardship to him. The case has been settled out of court.

The last three actions were petitions to the Superior Court for the assessment of damages done to the plaintiff's estates by the city's taking land for the widening of Water St. The cases had been left out to arbitration before I came into office. The awards made and filed at Dedham were as follows:— Mr. McDonald, \$882; Mr. Smith, \$578.82; Mr. Williams, \$717.25, including costs with interest from May 23, 1892, to the date of payment. The City paid the awards.

Since February 1, 1894, four suits have been entered in the Superior Court at Dedham against Quincy, viz.:

Caroline B. Tobey vs. City of Quincy.

Mary F. Hayward vs. City of Quincy.

Adeline W. Waterhouse vs. City of Quincy.

Peter J. Donaher et als. vs. City of Quincy.

The first three are petitions for juries for the assessment of damages. The petitioners were the owners of the tracts of land taken by our Board of Park Commissioners for a playground at Quincy Point. A settlement was effected by the Commissioners with Mrs. Tobey after her suit was entered. The last two cases are still pending. Mrs. Hayward claims damages to the amount of \$15,200, and Mrs. Waterhouse \$6,200.

The Donaher case is a petition for the assessment of damages done to the petitioner's property by the laying out of Hall Place, West Quincy. The action is still pending.

During the year quite a number of claims have been made against the city for injuries occasioned by alleged defective highways, only one of which has been settled, and none of which have been sued upon up to this date.

After giving careful consideration to the subject, I became convinced that the City had sufficient standing in law to warrant its bringing suits against the bondsmen on the Willard school-house contract and so, with your approval, I commenced on be-

half of the City last June in the Superior Court at Dedham a suit against each of Cushing's three bondsmen. It was three years and a half since the city took the building, and owing to the numerous changes made in the personnel of the City Government during that time, valuable papers had been mislaid or lost, among which were the original contract and bonds; and it was with the greatest difficulty that I succeeded in getting together sufficient material to prosecute the cases. It was not until December that the original contract was found, and I am indebted to Mr. McAnarney for finally locating the same with Mr. Cotter, who had occasion to use it in the Souther case. I am also indebted to Mr. Hayes, who had many of the original papers, and who kindly furnished me with considerable data on the subject.

It being necessary to have the actions first heard by an Auditor, because of the many items and accounts involved in the building contracts, I secured a reference of the cases to the Hon. Hiram P. Harriman as such Auditor, who will report his findings to the Superior Court.

During the last year I have made my headquarters for the transaction of the City's business at City Hall. I have attended the meetings of the City Council as directed by the charter. I have appeared before the Committees of the Council whenever my assistance was required. I have rendered to you, to the heads of departments, to the City Council and its committees, written opinions when requested so to do. I have also given personal attention to such matters pertaining to the City's business as have been referred to me by you, or by the city officials.

Respectfully submitted,

PAUL R. BLACKMUR,

City Solicitor.

Quincy, 1, Jan., 1895.

Adams Academy.

To His Honor the Mayor :

The Managers beg leave to present the following report :

The number of pupils in the school Sept. 1893 was : Resident pupils from June 1893, 25 ; resident pupils from September 1, 1893, 21 ; non-resident pupils from June 1893, 2 ; non-resident pupils from September 1893, 4 ; Total 52.

During the year one non-resident pupil and the head assistant teacher of the Academy have boarded at the house of Dr. Wm. Everett who generously kept his house on Elm street open as a school boarding house until July 1st 1894 when this pupil entered Harvard University. With his departure the the boarding house department of the Academy, which had existed since the first opening of the school in 1872, came to an end.

The discontinuance of this department of the school is much to be regretted but it is unavoidable

There is no provision in the school fund for a boarding house and it was carried on first by Dr. Dimmock and then by Dr. Everett, the former masters, at a great pecuniary sacrifice such as no master should be called upon to make even if another could be found willing to make it.

Of the total number who were in the school at the beginning of the year, six graduated ; five entering Harvard University and one terminated his school life with this last year in the Academy

Four left during the year leaving the number at the close of the year June 1894,	42
Of this number five failed to return, at the beginning of the term September 1894,	5
	—
	37
Eleven new pupils were admitted September 1, 1894,	11
	—
	48
Two have left the school since the beginning Septem- ber 1, 1894	2
	—
Leaving at the present time	46
As the number of pupils for the school year 1894-95.	

Mr. William S. Burrage resigned from the teaching force in the spring of 1894 and closed his connection with school at the end of the school year June, 1894

Mr. Tyler secured the services of Mr. B. F. Linfield a graduate of Harvard University class of 1894, and on his recommendation the Managers engaged him as an assistant teacher and he is proving himself well fitted for the duties of an instructor.

Mr. Burrage showed himself possessed of a great deal of ability and we regret that he felt called upon to resign.

The teaching force of the school proves to be sufficient for the present number of pupils, and the efficiency of the school is well maintained.

Owing to the business depression the funds of the school are still much too small to accomplish all that we could wish.

The Board of Supervisors were obliged to reduce the amount which could be allowed for the expenses of the school by the sum of six hundred dollars, but by a careful economy we hope to carry on the work of the school within the income.

A small outfit for the teaching of physics was procured at the beginning of the year but there is a need of eight to ten hundred dollars to thoroughly equip the school in this regard and it is earnestly hoped that some public spirited citizens will give the school this amount for its use in this manner.

The Managers earnestly urge the citizens to give this school their hearty support.

It is doing a good work for the young men of the City but it is doing this work under many difficulties and the assurance that the citizens appreciate the work and prize the school will be a great satisfaction to the Managers.

Especially would we urge upon our citizens the need of funds which each year becomes more impertative.

Will not some citizen of wealth remember this school and provide for its future success with a portion of his wealth?

The Managers cannot close their report without speaking of the efficient service which Mr. Sylvester Brown rendered on the Board and the great sorrow which the members feel at his untimely death.

This was the first year of his service on the Board of Managers and from the first he put the stamp of his personality on the work of the Board.

A popular teacher of ability and experience, he saw the needs of the school and by his courteous and kindly manner he brought men to his way of thinking.

A noble wholesouled man, he despised cant and hypocrisy and all things that looked like unfaithfulness or shirking.

His aim from the beginning was to secure the greatest results possible with the limited resources at our command.

His praises have been sung in every quarter of our city for he was a man who was active in every work that would advance the prosperity and happiness of humanity.

His love for children made him very successful as an instructor and his business experience and his experience as superintendent of schools made him an organizer and executive officer of unquestioned power.

His memory will be kept green for many a year, his death takes from our city a man whom we can ill spare and one whose place cannot be filled.

Board of Managers.

Report of Managers of the Woodward Fund.

To the City Council :

In the early part of the year the schoolhouse was furnished and some changes in the internal arrangement of the basement were made. The grading of the lot was partially accomplished, so that the building might be used, the remainder of the work being postponed until the final determination of any future alterations in the structure. No sooner had the building been occupied than we were notified that it was insufficient in size and deficient in the arrangement of the rooms. After listening to the suggestions of the Board of Instruction and of the Principal of the Institute, we engaged the services of four architects, to prepare plans for an addition to the present building, which should provide ample accommodations for a long time to come. The plans were received and examined, and we then deemed it prudent to submit them to a practical builder to obtain a disinterested estimate of the probable cost. The report received was to the effect that a building such as was indicated could not be completed under from thirty-five to forty thousand dollars. This sum, we thought, was more than should be applied to that purpose. We feared that if such a large amount was taken from the Fund and invested in a building, the income from the

remainder would not be enough to support the school as it ought to be supported. In this opinion the Board of Instruction coincided. In consequence, after consultation, the number of rooms was reduced and we are now having plans prepared on a basis which we hope will allow sufficient accommodations and at the same time, by not depleting the Fund, leave an income sufficient to maintain the school in a suitable manner.

In regard to the investment of the Fund we have concluded that it would be the best policy to sell some of the bonds now for a long time in our possession, and to purchase mortgages on real estate in Quincy or its immediate neighborhood. In this way it is believed that the rate of interest on the Fund can be materially increased, and the future prosperity of the school more completely assured.

During the year we have purchased, on very favorable terms, the Sheen property at the corner of Linden place and Greenleaf street, adjoining the schoolhouse lot. It was thought that perhaps at some time its convenient location might render it a desirable residence for the Principal of the school, and it was also considered best that the property should be under our control.

Respectfully submitted,

WILLIAM A. HODGES,
CLARENCE BURGIN,
HARRISON A. KEITH,
JOHN O. HALL,
CHRISTOPHER A. SPEAR,

Managers.

Woodward Fund and Property.

TREASURER'S REPORT.

To, the Board of Managers of the Woodward Fund of the City of Quincy :

GENTLEMEN :—I have the honor to submit the following report of the receipts and expenditures of the Woodward Fund for the fiscal year ending December 31, 1894. Also a statement of the securities in which said Fund is invested.

RECEIPTS.

. Respectfully submitted,

CLARENCE BURGIN,

Treasurer of the Fund.

Quincy, Jan. 1, 1895.

Woodward Institute.

The work of Woodward Institute is only in its initial stage. The time will come when its graduates will be the best annual report that can be sent forth.

There will, however, be no graduates for at least two years, as no pupils applied for admission to any class higher than our third grade. This was anticipated since most scholars in the city High School, within a year or two of graduation, would naturally prefer to complete their course.

The Board of Trustees believes, however, that while the character and standing of the first graduates will be a good criterion of the work of the school, a just estimate of the worth to Quincy of Woodward Institute cannot be formed until those who entered the sixth grade are graduated.

Though it is yet a day of small things, the Trustees have the utmost confidence as to the beneficial results to accrue directly to the pupils, and indirectly to the community, from the work of the cultured principal and her able corps of teachers, most of whom have declined to accept positions elsewhere of greater financial advantage. We cordially appreciate their deep personal interest in the success of the Institute, for which they labor in season and out.

Perhaps as satisfactory a statement as could go before the

public as to the work of the school and its condition would be Miss Small's Annual Report to the Board of Trustees, which is as follows:

To the Board of Trustees of Woodward Institute,

GENTLEMEN: The Woodward Institute for Girls was opened on Tuesday, April 10, 1894, with seventy-six pupils and seven teachers.

At the close of the school term in June, a reception was given to the people of the city, who, in so generous and friendly a manner, had received and encouraged the new educational enterprise by the reception tendered the teachers on the tenth of May, in the chapel of the First Church.

The second term began Monday, September 10, with (125) one hundred twenty-five pupils and nine teachers. The Departments are arranged as follows:

English	Frances C. Lance
Natural Science	Charlotte G. Franklin
Modern Languages	Kate F. Overman
Mathematics and Ancient History	Sarah W. Lane
Ancient Languages and Modern History	Edith H. Wilder
Business	Charlotte J. Burgess
Music	Maude E. Rice
Art	Georgiana C. Lane
Social Science	Carrie E. Small

The Faculty represents Wellesley, Smith, Radcliffe, Boston University, Bridgewater Normal School and the Boston Normal Art School. Three members of the Faculty have had the advantages of European travel. The teacher of Modern Languages has studied twelve years in Germany, Belgium and Paris.

This school, established for the liberal education of young women, has tried to fulfil the purpose of its Founder. It is not the rival of any school; it follows no precedent; it marks out its own pathway. It is essentially a "home" school. The

young women are taught to feel themselves members of one large family, and to do their best work in the sunshine of loving interest.

The course of study is a broad one, as its careful perusal will show. The object of the Business Course is not merely to produce technical experts, but so to train the mind that when a girl is given work to do, she may readily grasp the requirements of her employer, and become an intelligent, trust-worthy helper.

The school does not aim to take the place of a college, although it offers an extended course of study. It does aim, incidentally, to fit for college, but especially to prepare for the University of Life, and to this end, it will be ready to extend its course more and more as its income and facilities allow.

The school needs additional accommodations. It lacks a large study-hall, chemical and physical laboratories, drawing-room and studio, rooms for telegraphy, book-keeping and banking, a gymnasium, and a library,—all of which are imperative necessities. The present building has six small class-rooms, 25x28 feet. The pupils assemble for morning exercises in the central passage-way on the second floor. The dark lower hall is used as a library and reading-room; sometimes even the stairways are utilized for this purpose.

Only a dozen more pupils can be received next September, unless action be taken immediately to provide for a larger number. Judging from the first year's record, the rate of increase can safely be reckoned as forty or fifty pupils.

And here would I express to you my sincere appreciation of my associate teachers; not only for their cordial co-operation and eager assistance in the efforts for the success of our school, but also for their kindly encouragement and unswerving loyalty. To their noble womanliness and able instruction is due not only the increase in knowledge of our girls but their growth in *Character*. *To Be* is greater than *To Know*.

Respectfully submitted,

CARRIE E. SMALL,

Principal.

With reference to the plea for enlarged accommodations it should be said that the Board of Finance has in contemplation the erecting of an additional building which will give all or substantially all the accommodations needed.

Inspection of the work of the school on the part of the public is urged.

For the Board of Trustees,
EDWARD A. ROBINSON,
Secretary.

Report of School Committee.

To the Citizens of Quincy :

In accordance with the annual custom the report of the School Board is herewith submitted. Since the time when Quincy sprang into sudden prominence as the champion of new ideas in the matter of public school instruction and by her practical demonstration of the value of those ideas, her schools in comparison with those of the same rank in other cities of Massachusetts have constantly maintained a high grade of excellence and remain a proper subject for congratulation. The money appropriated for school purposes though large proportionately and burdensome to our taxpayers is yet insufficient to enable us to compete in the matter of salaries with the resources of our wealthy neighbors : nevertheless we believe that we do not boast when we say that there are no schools in the country which are better or more favorably known among educators than our own.

This successful result has been made possible largely by the harmony and unity of purpose which have existed between the Board and the Superintendent. The city is fortunate in having in the office of Superintendent of Schools a man of the ability, energy and progressiveness of Mr. Lull, and it has been the policy of the Committee, trusting in his proved discretion, to hamper him in no way in carrying out his ideas of the conduct of the schools.

We should not pass over in silence the patient courage of our corps of teachers in the High School contending with every possible disadvantage, who without the most elementary apparatus of modern teaching have succeeded in keeping up the name of the school. We desire publicly to testify to Mr. Tupper and his subordinates our full appreciation of their labors.

During the year the New High School building has been completed and occupied, and preliminaries have been arranged for the location of two much needed Grammar school houses, one in the rapidly growing district of Norfolk Downs, the other in that part of West Quincy known as "The Rail."

Briefly looking toward the work of the next year it is desirable that something be done in the way of manual training, of Kindergarten work as supplementary to our primary system, and of a further advance in work of the grammar grade by which pupils of a certain rank may anticipate studies now taken in the first year at the High School.

In regard to so called departmental work, it has been found that among our teachers some were specially fitted to teach a certain study, while others were best qualified to instruct in other branches, and exchanges have been made by which, for illustration, one teacher has taken two or more grades in arithmetic, another has taught grammar, a third history, and so on through the list of subjects. This scheme of special teaching has passed the experimental stage and has proved so successful that more will be done in this direction.

In conclusion we ask your careful consideration of the report of the Superintendent.

School Committee.

Report of the Superintendent.

To the School Committee of Quincy :

GENTLEMEN :—The twentieth report written by a Superintendent and the forty-fifth of the series of school reports printed by the town or city of Quincy, is now submitted to you. It is a brief, concise and plain statement of the work of a year that has had but little change below the High School, but of one that has been full of persistent, faithful and conscientious efforts by the members of the school department in the many lines of work included in the school curriculum. As it is the belief of the Superintendent that this School Board desires facts rather than theories, his third report will follow closely those of '92 and '93.

SCHOOL PROPERTY.

The total valuation of the eleven buildings and their grounds, of unused land belonging to this department, and of all other school property is approximately \$401,000.

Although a new school building has been erected during the year, yet the 4,399 children are at present massed in these nine distinct schools whose names should be and are a source of gratification to Quincy. Of the eleven buildings seven have reached

their maximum numbers and at least three are over crowded. Next April, when two hundred and more of the little "five-year-olds" apply for admission, chairs and desks will be at a premium. The old High School building cannot, because of its location, relieve the pressure in the most congested districts.

The board has already voted favorably on the petitions of the citizens of the "Norfolk Downs and Wollaston Park District" and of the "Rail District" for new school accommodations and the Council has appropriated \$6,600 for the purchase of land in each of these districts.

As at the present moment more than 200 children are ready to enter each of these new buildings, it is evident that action has been taken none too quickly. Therefore, while such a generous response on the part of the Council, as representatives of the people, calls for the thanks of all those vitally interested in the education of the youth of Quincy, it must not be forgotten for a moment that it is all for the sons and daughters of these representatives and of this people, and, in fine, that it is *home* missionary work, not *foreign*.

It would be pleasing if the Superintendent could assure the taxpayers that these two buildings will satisfy all demands; but the facts will not agree with such a statement. From the Lincoln School last April the entire sixth grade was sent to the unfinished attic of the John Hancock, so that a new class might be organized in the former school. When the cold of autumn became too intense, the class was removed to the Adams and transportation was provided.

Next April one grade of the John Hancock will be driven to the attic to make room for the annual growth. It is obvious that this attic should be finished at once to provide for the natural increase of the school and also to permit the separation of the seventh and eighth grades. It is as evident that the Lincoln needs an addition of two rooms to provide for the same separation and to take back the children now transported from the district.

TEACHERS.

One new room of 40 pupils has been organized in the Lincoln and the corps of the High has been strengthened by the addition of one new teacher. The cooking lessons in the High were omitted in the spring because of lack of room, and were not begun in the autumn because of the necessity of reorganizing the school. Therefore the teacher in this department is not recorded below.

At the close of the schools in December.

	1893.		1894.	
	MEN	WOMEN	MEN	WOMEN
High School, Principal .	1	0	1	0
Other Teachers . .	1	4	1	5
Grammar Schools, Principals	7	1	7	1
Other Teachers . .	0	28	0	28
Primary Schools, Teachers .	0	43	0	44
	—	—	—	—
	9	76	9	78
* Assistants, . .	0	14	0	15
	—	—	—	—
	9	90	9	93
Special Teachers . .	0	5	0	4
	—	—	—	—
	9	95	9	97

*This number fluctuates during the year. From April to July the demand is the greatest.

PUPILS.

1. Whole number of different pupils registered .	4,399
2. Average number belonging	3,418
3. Average number attending	3,272
4. Ratio of attendance to membership	95.7
5. Pro rata of tardiness to average membership .	0.46

In the table below are similar data for each year since Quincy became a city.

	1.	2.	3.	4.	5.
1889.	3,287	2,619	2,516	96	.36
1890.	3,432	2,698	2,587	95	.53
1891.	3,649	2,865	2,733	95	.59
1892.	3,724	*3,392	3,228	94.9	.53
1893.	4,114	3,211	3,067	95.5	.59
1894.	4,399	3,418	3,272	95.7	.46

*On the last school day of December, 1892, the number of actual members was 3,234; in December, 1893, the number was 3,330. It is evident that the confusion arising from the organization of the Lincoln and the re-organization of the John Hancock, and from the consequent transfer of pupils from other schools to them, has caused an error in this average.

CENSUS.

The population of Quincy in 1890 was	16,723
The last estimate of the State Board of Health is	20,387
An estimate generally accepted is	20,000

The census of May, 1894, as reported by D. Vinton Pierce, is as follows :

Age.	Centre.	Point.	West.	South.	Atlantic.	Wollaston.	Total.
Five,	56	45	245	149	40	60	595
Six,	69	45	174	172	56	58	574
Seven,	61	46	166	133	37	45	488
Eight,	61	29	145	121	39	37	432
Nine,	46	31	128	109	45	44	403
Ten,	51	37	131	110	43	47	419
Eleven.	48	33	104	100	36	42	363
Twelve,	59	32	108	96	46	42	383
Thirteen,	47	31	117	90	40	30	355

<hr/>							
	553	373	1,444	1,183	433	457	4,443

TOTALS FOR TEN YEARS.

	1885	1886	1887	1888	1889
South . . .	520	727	769	840	926
Centre . . .	409	461	461	480	481
Point . . .	308	376	380	368	353
West . . .	693	939	964	1,008	1,108
Wollaston . .	229	242	251	278	313
Atlantic . . .	257	343	328	322	314
Total . . .	2,416	3,088	3,153	3,296	3,495

	1890	1891	1892	1893	1894
South . . .	1,024	1,158	1,281	1,174	1,183
Centre . . .	485	522	522	557	553
Point . . .	325	337	357	358	373
West . . .	1,161	1,281	1,407	1,383	1,444
Wollaston . .	332	365	416	446	457
Atlantic . . .	338	382	394	402	433
Total . . .	3,665	4,045	4,377	4,320	4,443

The gain this year is 123.

Between May of 1884 and May of 1885 there was such a loss that it suggests a grave error. Since 1886 the average yearly gain has been 170.

MONEY.

Valuation of Quincy, May, 1894,	\$16,817,455 00
Total tax levy,	307,827 00
Rate per thousand,	17 60

APPROPRIATIONS.

Salaries	\$57,235
Fuel	4,360
Janitors	4,630
* Transportation	1,000
* Miscellaneous	4,300
* Books and Supplies ,	3,500
Evening Drawing School	1,100
Evening Common Schools	1,700
Sewing	550
* Cooking	100
	<hr/>
	\$78,475

*A transfer of \$1300 was made from Miscellaneous to Books and Supplies and of \$100 from Cooking to Transportation. There has been no relative change in the expense of the Miscellaneous and Books and Supplies departments. The transfer was made necessary because this year for the first time a careful distinction has been drawn between the various items of the two accounts.

William N. Eaton, Commissioner of Public Works, reports the following outlay for repair of school buildings.

High	\$18 30
Adams	92 77
Coddington	184 02
John Hancock	146 14
Lincoln	293 13
Quincy	28 30
Washington	396 80

Total,	\$78,285 60	\$189 40

See appendix for itemized account.

ADDITIONAL STATISTICS.

By the fifty-seventh Annual Report of the Board of Education, Quincy holds the following rank among the 352 towns and cities of the State and the 27 of the County.

Percentage of valuation appropriated to public schools. State, 161 ; County, 17.

Ratio of average attendance to the whole number of children between 5 and 15 years. State, 258 ; County, 22.

Comparative amount of money appropriated for each child between 5 and 15 years. State, 178 ; County, 21.

Number of pupils in the twelve grades.

	Dec. '92.	Dec. '93.	Oct. '94.
Grade I.	653	672	691
Grade II.	450	400	522
Grade III.	406	421	428
Grade IV.	393	402	428
Grade V.	361	370	383
Grade VI.	319	314	358

Grade VII.	253	291	302
Grade VIII.	214	227	251
Grade IX.	86	124	147
Grade X.	48	67	77
Grade XI.	30	33	46
Grade XII.	19	25	26

Oct. '94 was taken because of reduced numbers in Nov. and Dec. due to diphtheria.

The teachers have had their attention called to the sad loss of pupils as the different classes move up a grade, and they have been urged to do all that they can to keep the children in school. The shrinkage begins to be noticeable in grade V. and has continued with an average loss of 47 per grade for the last three years. The average membership of grade V. for three years has been 371. If this number had continued, the grammar schools would have numbered 1,484. Whereas, the average for '92, '93 and '94 is 1,214, a difference of 270. Suppose a loss of 70 were due to death, removal from the city, or similar reasons, where are the 200? "At work" is the probable answer. In many cases the aid of the child is needed for the support of the family, but in many others the parent has yielded to the "teasing" of the child. These are children in whom the teacher should awaken "an inner want for knowledge."

SALARIES.

The financial depression of the past year prevented any general increase in salaries. In fact, many of the teachers who were drawing the maximum salary left, and their places were taken by younger teachers, so that the average salary of the 72 teachers of the grammar and primary grades (not principals) is only \$469.09 as compared with \$470.77 last year. At least five of those working for \$425 (the third year in Quincy) are getting excellent results. Five other teachers are receiving only \$400.

Seventeen teachers have retired during the year, of these

ten were "called" by the inducement of larger salaries. See appendix for further information.

THE NEW HIGH SCHOOL.

"It is done!" Whittier's exclamation in his "Laus Deo" is also expressive of the joy that the friends of the High School felt Tuesday, September 11, when the new building was formally and most successfully dedicated. As the daily press has published elaborate descriptions of the building and a full account of the exercises of dedication embellished with numerous "cuts," and as the organ of the school, "The Golden Rod," has devoted a whole number to these matters, this report will deal with the school rather than with the building. In the appendix, however, will be found many details that should be preserved.

In the report of '93 your Superintendent ventured the prophecy that in spite of the attractions of two schools in this city, of that at Braintree, and of many in Boston, the High would open with more than 300 pupils. An enrollment of 306 was reported on the last Friday of September. Though this number may seem large, it is only 8 per cent. of the whole number of pupils in the city on that date. There is still room for growth.

In High Schools twenty-five pupils are considered a fair number for each teacher. Instead of twelve teachers, only seven are struggling with the enlarged curriculum. To meet the evident appreciation of the new opportunities offered, the teaching corps should be increased. One teacher, even if she is very capable, cannot handle 120 in the business course.

The business course offers the first year technical English grammar, rhetoric and composition; English history; civil government; book-keeping and commercial arithmetic. The second year's work is advanced book-keeping with banking, elementary commercial law, typewriting, stenography, and English composition.

Another gratifying growth is in the department of science. Never before has it been possible to develop properly this divi-

sion of the course because of the utter lack of place or of resources. No better laboratory rooms could be desired and the Council has generously appropriated \$1000 to begin their proper equipment.

Furthermore, the school will now be able to meet the requirements of all the technical schools and colleges—that is, if the teaching corps is sufficiently increased. Quincy can now feel that her school system has at last a head and has reason to be proud of this last example of cephalization.

The work in the High School is departmental; there is only one session; the studies are new; in fine the time has come when the pupil must rely more on himself and do more real studying. It is difficult to impress all this on child or parent and therefore the value of a regular study period at home is not fully recognized. It is of prime importance that a certain time, one, two or three hours, should be set aside between four and nine o'clock P. M. for quiet and persistent study. If any pupil declares that there is no need of such a period, he is wasting his time and should at once elect an additional subject. To make certain that the parents understand this matter a circular was sent home last October by every pupil. With the circular was enclosed a card to be returned with the signature of the parent as a means of protecting the teachers in case the pupil fails in his work.

(See appendix.)

It should be unnecessary to say that this study period should never interfere with regular physical exercise.

The new High has aroused such enthusiasm among the graduates of the school that they have organized as "The Association of the Alumni of the Quincy High School." The object is: "To promote the usefulness of the Quincy High School, to furnish opportunity for friendly intercourse among its Alumni, and to create and preserve harmonious relations between the school and the community in which it is placed."

The reunion of December 31 in the new building, it is hoped and expected, will be the first of "a long procession down the centuries." (See appendix.)

GRAMMAR SCHOOL GRADUATION.

There is a happy medium between the formal graduation in which the individual pupils and the teachers labor for many days to prepare a "show" and the opposite extreme, when after eight years of schooling the single sub-committee, superintendent, or principal during the last session informally hands to the class the diplomas. This happy medium was introduced last June in Hancock hall. The 225 graduates assembled for the first and only time on Tuesday afternoon of the twenty-sixth and without any "fuss or feathers" sang their old songs, spoke some of the gems of the year's work, illustrated their daily physical exercises, saluted the flag, received their diplomas, and, by the kindness of certain friends, enjoyed a slight refreshment not mental. As all the exercises were executed by the entire class and not individually (and therefore with but little nervous strain), as there were no elaborate preparations and no reason for more than the every-day dress, the innovation proved a genuine good time and its repetition is warranted in June, 1895. The school board awarded 225 diplomas to the eight schools in the following order:

Adams, . . .	36	Quincy, . . .	25
Coddington, . .	26	Washington, . .	27
John Hancock, .	22	Willard, . . .	28
Lincoln, . . .	22	Wollaston, . . .	39

See appendix for programme.

EVENING DRAWING SCHOOL

This school is now located in a large room on the third floor of the new High School. As this room can be reached directly from the tower, the rest of the building will receive no harm. The incidental account of the school is large this year because of the removal and the need of new fittings, but the rent saved has nearly covered the cost.

Last April 10 certificates were presented to the members of

the mechanical class and 8 to those of the freehand for one year's work ; also 5 diplomas to the mechanical class.

The average attendance for the year was : mechanical 18.6 ; freehand, 11.8. The teachers and graduates of the High school have, as last year, improved the opportunities offered.

EVENING COMMON SCHOOLS.

Adams : Largest attendance of men, 76 ; of women, 25.
 Smallest attendance of men, 16 ; of women, 0. Average attendance of men, 37.7 ; of women, 9.3. Average number of teachers, 4.5. Number of sessions, 52.

Willard : Largest attendance of men, 86 ; of women, 13.
 Smallest attendance of men, 28 ; of women, 0. Average attendance of men, 49 ; of women, 4.8. Average number of teachers, 5.2. Number of sessions, 55.

The earnest spirit that pervades the two schools and the persistent and pains-taking efforts of the teachers are highly commendable. The "hoodlum" element is only slightly noticeable.

There is a demand on the part of those who have attended these schools for several years, and also by those who have graduated from the Grammar schools, and even by those who have been obliged to leave the High after an attendance for one or more years, for greater opportunities than the Evening Common Schools afford. It is now time to offer such persons at least some of the subjects of the High School, but not until they can show that they are sufficiently advanced to profit by them.

GENERAL MEETINGS.

These meetings have been as interesting and profitable as those of the last two years. The number is not as great as in the past, because of lack of rooms that were properly lighted. The new High will afford both room and light ; but the fixtures for lighting were not in place in time for the fall meetings. The subjects and speakers were ;—

- Jan. 23. George H. Martin, Supervisor, Boston.
 "Some Ends of School Work."
- March 15. Henry T. Bailey, Agent State Board of Education.
 "Drawing in Connection with Other Subjects."
- March 20. Robert C. Metcalf, Supervisor, Boston.
 "Language and Reading."
- April 11. George A. Walton, Agent State Board of Education.
 "Relations of Teachers and Pupils to the Schools."
- May 15. A. E. Winship, Editor Journal of Education.
 "Psychology for Teachers."
- May 24. Frank F. Murdock, Bridgewater Normal School.
 "Methods in Elementary Geography."
- Sept. 4. H. W. Lull, Superintendent of Schools.
 "The New Year's Work."

Five additional speakers are ready to answer the call of the Superintendent.

THE TRAINING CLASS.

In spite of the manifest purpose of those in control of educational matters throughout the state to demand a Normal School education of every teacher, and also regardless of an equally self-evident fact that the demands on the teacher are increasing rapidly, nearly 60 applied for admission to the Training Class in September and every week there is a new applicant. It should be repeated again and again that a Normal School education is invaluable.

See appendix for members in December.

TRUANCY.

At the present moment, as in the past, there is urgent need of one energetic truant officer who has an intimate acquaintance with the new truancy laws, with all the highways and byways of the city, and with the places of business where children are regularly employed. It is asking too much and it costs too much to make truant officers of the principals. An officer armed with the legal rights of the position—even if the armor is no

more than a row of brass buttons—will exert a silent influence on the street that will be most beneficial.

The new law of 1894 is as follows :—

[CHAP. 188.]

AN ACT RELATING TO SCHOOL ATTENDANCE AND TRUANCY.

Be it enacted, etc., as follows :

SECTION 1. Every person having under his control a child between the ages of eight and fourteen years, and, in cities and towns where industrial training is taught, between the ages of eight and fifteen years, shall annually cause such child to attend some public day school in the city or town in which he resides, for at least thirty weeks if the schools are kept open that length of time, with an allowance of two weeks' time for absences not excused by the superintendent of schools or the school committee; *such period of attendance shall begin within the first month of the fall term of school, and for each five days of absence of any such child thereafter, in excess of the above allowance, before the completion of the required annual attendance of thirty weeks, the person having such child under his control shall, upon the complaint of the school committee or any truant officer, forfeit to the use of the public schools of such city or town a sum not exceeding twenty dollars; but if such child has attended for a like period of time a private day school approved by the school committee of such city or town, or if such child has been otherwise instructed for a like period of time in the branches of learning required by law to be taught in the public schools, or has already acquired the branches of learning required by law to be taught in the public schools, or if his physical or mental condition is such as to render such attendance inexpedient or impracticable, such penalty shall not be incurred.*

The important change has been italicized. The child must begin the year in September, not with the tenth week of school (if there are forty in all), and the parent can be fined more than once.

BUILDINGS AND GROUNDS.

There has been a commendable attempt on the part of many teachers and pupils during the year to beautify both rooms and yards. This has been brought about by their own efforts and also by the aid of many friends. As the Superintendent has assigned to Grades IV, V, VI, VII and VIII, definite authors as a basis of the year's work in "literary gems," these grades have had an additional incentive to secure a likeness of Longfellow, Whittier, Holmes, Lowell, or Bryant for their walls. Contributors have been so numerous that it is difficult to give a complete list, but all deserve the thanks of the citizens.

THE QUINCY TEACHERS' ASSOCIATION.

A pleasant feature of the year, and also a sign of growth, is the voluntary organization of all the teachers in Quincy for mutual pleasure and profit. The work for the winter has been carefully marked out, the parts assigned, and happy results are anticipated. As growth on the part of the teachers will make them more valuable to their schools, the School Board voted the Association the use of the High School building for its meetings.

See appendix for officers, meetings, work, et cetera.

SPECIAL DEPARTMENTS.

The special subjects have shown decided growth during the year. They have had a more practical value and have come nearer the individual child. Even if the teaching force remained unchanged from year to year, the need of special direction in these subjects would exist. It is all that live teachers can do to keep abreast of the times, by reading and visiting, and by attending institutes and summer schools, in the old-time subjects. The special teachers are working out new methods adapted to the new wants of the day, and by constant communication with fellow workers throughout the state, can direct their own work intelligently and can correlate it with the other de-

partments. As we lose annually nearly one-fifth of our teachers, it is evident that continued supervision is necessary. Again the special work demands special natural qualifications, and as they are combined in only a few persons, help must be given.

Quincy demands as much as any city in the State and more than the majority of cities and towns. Teachers who have succeeded here go away confident of filling the new positions. Their successors are generally deficient in at least one particular and must learn here from principals and special instructors. Possibly the introduction of more extended departmental work will give such relief to the teachers that they may develop along the line of the special subjects, but to-day the need of supervision is imperative.

During the past year illustrative sketching has joined Nature Work more closely to the Drawing, and a careful selection of poems for memorizing and of other writings for reading has helped to correlate the Nature Work with choice literature.

In music a pleasant feature has been more individual work to give greater independence and interest. Combinations of two, three, four, six and eight voices have been tried with good effect. In the High school an orchestra, a glee club of young men and a sextette of young ladies have been organized since September. There is less poor work at present than ever before and so the general average is higher in this department.

In Drawing the pupils of the higher Grammar grades and of the High School are sketching directly from nature (home work) in books furnished for that purpose. Thus they make practical application of the fundamental principles taught in the school. Considerable latent talent is being developed.

In Sewing the quality of the work is improving and greater interest is manifested. The work suffers from two causes: first, the seventh and eighth grades (girls) sew together and thus prevent a full development of the plan of work; second, on account of the large number of classes only one hour in seven school days is devoted to this department. Generally one hour per week is given and in some places two.

LOSS OF TEACHERS.

Nearly one-fifth of the corps has been changed during the year. House-keeping and home-making have attracted some. Larger salaries have tempted others to leave what, in other respects, was a satisfactory field of work. The first loss should not be greatly regretted, because it will be for the benefit of the community at large to have intelligent homes established that can appreciate child-education. The second loss should be a cause of grief, because larger salaries are offered to our most capable teachers, and every change means a weakening, for a time at least, of the teaching force.

This year, for the first time since January, 1892, a third loss must be recorded. The "Death Angel" has twice visited the schools, and has removed two of our tried and faithful teachers. There were in our corps no more conscientious and devoted workers in the schoolroom than Theresa S. Fegan and Caroline M. Shunk. Children, parents, teachers and committee mourn their loss.

See appendix for a brief synopsis of their educational lives.

DIPHTHERIA.

Besides the annual appearance of the common diseases incident to childhood and youth, this year we have been sorely afflicted by a far more dangerous sickness. Diphtheria showed itself at the beginning of the last term in September, but the cases were not sufficiently numerous to cause general alarm until the third week in November. At that time, to allay public anxiety, it was deemed best to close the Coddington, (November 16), and a week later to close the Adams. As the Thanksgiving recess was then near at hand, it seemed best to close all the schools until the number of new cases had been reduced to a minimum. All schools reopened Monday, December 10. The Adams and the Coddington had, meantime, been thoroughly fumigated and then washed with sulpho-naphthol.

Not for a moment should a desire for a high percentage in

attendance be placed before health and life; but the teachers deserve sympathy for their inability to maintain in November and December the excellent averages of the previous months. The work of the year has also been delayed and it will require greater exertions than usual to put the classes where they belong.

CONCLUSION.

Considering the fact that there are more than six thousand fathers and mothers represented in the public schools, there has been very little friction between teachers and parents during the year. In the cases that come to the office, almost the universal reason is a misunderstanding caused by the child's too vigorous imagination, his fear of punishment at home, or to the failure of the parent to give the teacher private information about certain peculiarities or physical weaknesses of the child. Some parents seem to think that the teacher, simply because he is a teacher, is gifted with power to know these weaknesses by intuition. Whenever there is a seeming lapse on the teacher's part, it is the duty of the parent to see the teacher *with the child*.

With thanks for the harmony that has prevailed during the year in the teaching corps and in this School Board, this report is respectfully submitted.

H. W. LULL,

Superintendent of Schools.

THERESA S. FEGAN.

Miss Fegan was born in Quincy and received all her education in the Quincy schools. She graduated from the High School in the class of '79 and entered Col. Parker's Training Class in September. In September, 1880, she became an assistant and the next January was appointed a regular teacher of Grade I in the Willard School. Later she was promoted to Grade IV of the same school. Miss Fegan was given a leave of absence in December, 1893, but was never able to return to her class. She died Saturday, July 28, 1894.

CAROLINE M. SHUNK.

Miss Shunk was a graduate of the Wollaston School and the salutatorian of the class of '86 of the Quincy High School, where she took a post-graduate course the next year. After service in the Quincy Training Class and as an assistant, she was elected teacher of Grade I and later of Grade III in the John Hancock School. In July, 1892, she resigned, but after a rest of a year, she returned to service as teacher of Grade IV in the Adams School. When the new year began in September, 1894, she was obliged to ask for a leave of absence for one month. To the surprise all her friends, Miss Shunk failed suddenly and died Saturday, September 22, 1894.

Alice Coney Pope,	Lauretta Catherine Shea,
Marjorie Lorraine Souther,	Christine Louise Sweeney,
Margaret Helen Sweeney,	Ada Blanche Thompson,
Elizabeth Genevieve Walsh,	Mary Adelaide Webster,
James Eugene Cashman,	Herbert Andrew Thompson.

 CLASS ODE.

I.

We have gathered, dear classmates, to bid our farewell,
 To the scenes that we've cherished so long;
 By the paths that we've travelled together for years,
 We must sing our last sad parting song.
 Long, long be our hearts with sweet memories filled
 Of the school days that now are no more;
 For from these well loved scenes we must boldly go forth,
 As birds from their nests fain would soar.

II.

First we met when the sunshine of bright autumn days.
 Shed its glories on these hallowed walls;
 And memory radiant treasures reveals
 As our school life it once more recalls.
 How sadly we now take our leave of this school,
 And venture on life's troubled sea;
 With what hopes for the future, and dreams of the past,
 We utter our parting to thee.

III.

The sun of our school days is sinking to rest,
Soon shadows around us will throng;
Then let us make sacred this sad parting hour,
With the echoing words of our song.
Oh, bright be our future, where'er we may roam,
In our homes, wheresoe'er we may dwell;
Let our thoughts turn again to our school days of yore,
And the time when we sang our farewell.

JANE PRUDENCE MCGOVERN.

SECOND PRIZE SPEAKING CONTEST

And Award of Prizes for Essays, Translations and Declamations, Hancock Hall,

Judges of Declamations:—Mr. William R. Tyler, Headmaster of the Adams Academy, Quincy; Miss Carrie E. Small, Principal of the Woodward Institute, Quincy; and Mr. T. Henry Wason, Sub-master of the Brimmer School, Boston.

TRANSLATIONS.

The passages selected for translation are as follows :

Cæsar, 1897, Gallic War, Book 4, Chapters 25 and 26.

Virgil, 1896, *Æneid*, Book 6, lines 305-336.

Cicero, 1894, "Pompey's Military Command," Chapter 1.

French, Charles XII, Book Second, Chapter 1, as far as
" Il partit pour sa premiere campagne."

GENERAL STATMENTS.

1,—All translations and all essays must be handed in on or before February 28, 1895.

2,—Translations and essays must be signed with an assumed name.

3,—Together with each translation and each essay there must be handed in a sealed envelope containing: 1,—Both the assumed name and the real name of the pupil. 2,—A statement to this effect: The essay or translation offered by—— (pupil's name) is my own unaided work.

4,—Use examination paper. Write on only one side of the paper. Neatness, spelling and penmanship should be kept constantly in mind. Clear, vigorous, and idiomatic English is always acceptable to the judges.

To The Parents of the Pupils in the Quincy High School.

As the daily session of the High School closes before 1.30 P. M., it is evident that no pupil of the school can do work satisfactory to himself, his parents or his teachers, unless he has at home regular study hours that shall be observed as carefully and conscientiously as the study hours under the direct supervision of his teachers. To a great extent, promotion will depend on this home work. The parents must demand it, if they expect to get proper returns for the time spent in school. If any pupil says that he has nothing to do at home, something is wrong, and the matter should be investigated.

Respectfully yours,

FREDERIC ALLISON TUPPER,

Head Master.

October, 1894.

To aid the teachers in securing this home work, the parent or guardian is requested to sign and return the inclosed slip.

This is to certify that

OF THE
QUINCY HIGH SCHOOL.

Has a regular time each day for study at home, and is required to give strict attention to this work at such time.

Signed,

October, 1894.

N. B.—Co-operation of parent and teacher is the best means of producing successful work, and good deportment on the part of the pupil.

The New High School.

PROGRAMME OF DEDICATION.

Tuesday, September 11, 1894, 3 o'clock, P. M.

1852—1894.

Chorus, High School.

Invocation, Rev. Daniel Munro Wilson.

Announcement of Completion of Building, Contractor
Henry E. Mellen.

Delivery of Building to Mayor, Commissioner of Public Works,
William N. Eaton.

Response, His Honor William A. Hodges,
Mayor of Quincy.

Acceptance, Chairman of School Board,
Emery L. Crane.

Reception of Keys, Head Master
Frederic Allison Tupper.

Remarks, Superintendent of Schools,
H. W. Lull.

Address, His Excellency Frederic T. Greenhalge,
Governor of the Commonwealth.

Ode, "My Quincy by the Sea," High School.
Words by Frederic Allison Tupper.

Presentation of Flag, Paul Revere Post 88, G. A. R.
I. M. Holt, Commander.

Star Spangled Banner, High School.
Soloist, Miss Mary F. White.

President of the Day,—
DR. JOSEPH M. SHEAHAN, Sub-Committee, High School.

MY QUINCY BY THE SEA.

TUNE: . . . AMERICA.

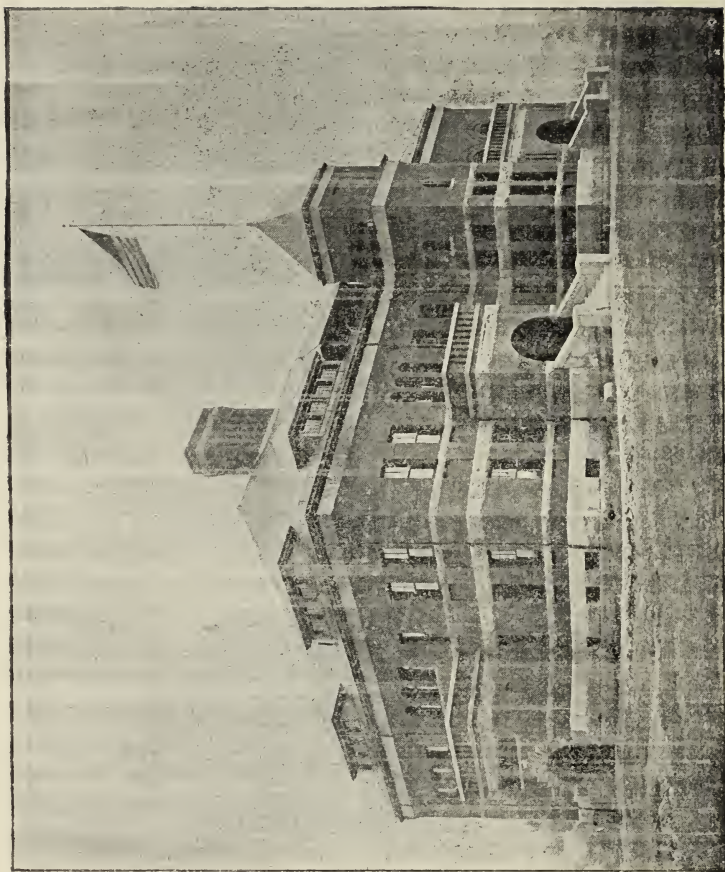

My Quincy by the Sea,
Founded by patriots free,
Thy praise is great:
Town where my hero sires
Kindled fair Freedom's fires,
Whose glory ne'er expires,
Guarded by Fate.

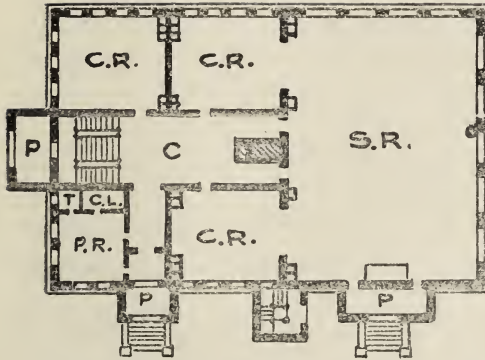

My native Quincy dear,
City without a peer,
I love thee well;
I love thy ledges bold
That granite stores unfold,
A mine of wealth untold,
No tongue can tell.

Who hath the power to count
 The charms of Merry Mount
 Or Fair Blue Hills?
 Stand on the ledges high,
 And feast the enraptured eye,
 Till Heaven itself seems nigh,—
 Gone all life's ills.

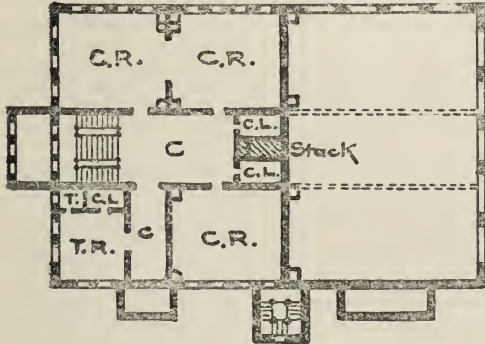

My father's God, I pray,
 Keep Quincy safe alway
 Beneath Thy care.
 Bless Thou her Public School,
 Let truth and beauty rule,
 As by Siloam's pool
 Bloom lilies fair.

—FREDERIC ALLISON TUPPER.

Fire Proof Tower.

DESCRIPTION OF THE BUILDING.

The new structure is located at the corner of Hancock street and Butler road. The shape of the building is rectangular. The length of front on Hancock street is 112 feet, 8 inches, and the width on Butler road is 74 feet.

The foundations are Quincy granite and all partitions inside are of brick to the roof.

The exterior shows several courses of blue granite underpinning laid rock face, except the top course, which is pean hammered.

Above this are carried vaulted walls, laid with Taunton red brick relieved by continuous broad belts of red granite, forming sill and cap courses of windows and coping, the latter hammered and the rest rock face.

The outline of the building is broken on the Butler road facade by a square porch, entered through a massive archway of granite and leading to the main staircase. On the Hancock street facade are two more porches, entered by brick archways, each 10 feet wide, one being the principal entrance and the other serving for quick egress from study rooms in case of fire. These porches are paved with tiling laid in cement, and the steps and buttresses are hammered blue granite.

A tower 16 feet square is carried up between these porches and incloses a fire proof stairway and a flagstaff that can be raised or lowered through the well room. On front of the tower is reserved space for a clock.

On the front of the porches are "HIGH SCHOOL" and "1894," in cut and polished granite.

The windows of the study room, all around on three facades are large, with arches of brick, and the tops treated with ornamental iron work. The roof is slated, with dormers all around. The chimney stack is of brick, with granite belt and cap. There are iron snow guards on the roof, and the gutters and conductors are of copper.

The treatment outside is mainly Romanesque, the object

being to obtain breadth, solidity and pleasing proportion without costly carving or other decoration.

The basement is nine feet clear, contains heating and ventilation plants, six furnaces, coal bin, crematory closets and large cloths rooms for boys and girls on both sides of the corridor, being supplied with rows of continuous compartments of iron lattice work six feet high, each fitted and of a size to accommodate outer garments and umbrella for each pupil. The whole is made open to facilitate drying of wet clothing.

On the first floor is the principal's room, $17\frac{1}{2} \times 19\frac{1}{2}$, fitted with closet and toilet, three class rooms each 25×28 , and a large study room 50×70 . It is lighted on two sides and connected with the main corridor 18 feet wide.

The study room is ceiled two stories high and the rest of this story is 12 feet clear.

The second story contains three class rooms, 25×28 feet each, and a teacher's room, $17\frac{1}{2} \times 19\frac{1}{2}$, fitted up with closet and toilet room directly over that of the principal's room on the first floor, all being 12 feet clear.

The third, or roof, story, contains large chemical and physical laboratories and physics lecture room, which take up the whole half of the building on the easterly side, while the westerly side, from end to end, contains two large rooms to be utilized for drawing, modelling, etc.

The rooms in this story are well lighted by casement windows six feet above the floor, throwing the light downward. The laboratories are all well fitted with drawers, closets, sinks, hood and experimental tables.

The corridors of the building, from, basement to upper floor, which are carried up directly over each other, are 18 feet wide, one end of which is the staircase entirely of iron treads supplied with rubber mats.

The exit from the second and third stories can be made also by doorways to the fireproof staircase of the tower.

All the plumbing is of the latest and most approved style, and made thoroughly accessible for repairs. All the class rooms, study rooms and laboratories are supplied with slate blackboards,

and all of these rooms have bookcases made of ash, with double sliding glass doors.

The plastering of the class rooms and study rooms are tinted with warm colors to match the woodwork. The top lights of the study room on the westerly side are of amber colored glass. All the floors throughout are of the best rift hard pine.

The whole building is supplied and fitted in the latest and most approved manner, with electric and gas fixtures, gongs and speaking tubes.

The standing finish of the rooms and wainscoting of the corridors are of natural ash. The doors are of white pine, with transoms for lighting the corridors, and are supplied with good fixtures.

All the windows are supplied with Venetian blinds, and some of the rooms are connected by large, wide rolling doors.

For the purpose of obtaining clear head room in the upper story cantilever trusses are used for supporting the lower purlins of the roof.

These trusses on one-half of the building rest directly upon the solid brick partition walls separating the corridors and rooms, while on the other half they rest directly on the top chord of two heavy wooden trusses of 50 feet span which also support the ceiling joist of the study room.

The building was designed by E. G. Thayer of Wollaston, his plans being selected from those of 14 others. The contractor was Henry Mellen & Son of Worcester.

[Architect Thayer's statement.]

The Old High School.

1852-1894.

PATTEE'S HISTORY.

“At the annual meeting held in March, 1851, a committee of one was chosen from each school district to report at the adjourned meeting the expediency of erecting a High schoolhouse in compliance with the statute.

At the adjourned meeting held May 26, the committee reported that they had selected a lot of land in the rear of Quincy avenue, belonging to the Aphorp estate, as the most convenient site for the High schoolhouse, and also for two other school-rooms for the accommodation of the overcrowded Primary schools of the south and centre districts. The land was purchased for \$1,200. The building was to be 54 by 38 feet, and constructed in a plain Grecian style, at an estimated expense of \$4,775. Mr. William Parker received the contract for constructing the building at \$4,952, and when completed, including the land, it cost \$6,748.68.

The town appropriated \$800 to establish this school. Owing to the time taken to arrange the preliminary steps, the school was not opened until the 12th of May, 1852. On the day of examinations, seventy-three candidates presented themselves. A series of eighty questions was prepared, and subdivided as follows, viz:—Twenty in arithmetic, twenty in geography, twenty in grammar and twenty in spelling. Fifty-one were

admitted, having returned the most correct answers. Thus was the High school organized under the charge of Asa Wellington, Esq., who taught this school three years. Miss C. R. Burgess was the first female assistant, and was employed in the year 1854."

OLD RECORDS.

"In the first organization of the High school, under one teacher who will have the duty of establishing the system, it is not deemed advisable that the number of children admitted should exceed 50 males and females.

Candidates for admission shall produce from the masters of the schools they last attended a certificate of good moral character. It shall be the duty of the School Committee (until otherwise ordered) to examine the candidates in spelling, history, English grammar, modern geography and arithmetic, such arithmetic to be made by written questions, and those only shall be admitted who by their answers shall have shown themselves competent to pass at once into classes in the High school studies.

The course of study shall be :

1 — Review of preparatory studies in the text books authorized to be used in the grammar schools.

2 — Algebra.

3 — History of the United States and general history.

4 — Geometry.

5 — Surveying.

6 — Constitution of the United States and of Massachusetts.

7 — Bookkeeping.

8 — Physiology.

9 — Latin and Greek, elective, when parents request it in writing.

The several divisions shall receive instruction in spelling, reading, writing, declamation and composition.

At a meeting held April, 1852, Asa Wellington was elected as principal of the High school to commence May 12, 1852, at \$70 per month, to March 15, 1853.

May 12, 1852, the High school began with fifty pupils, having passed an examination by written interrogatories, seventy-three candidates presented themselves and twenty-three were rejected.

The School Committee in 1852 were Charles F. Adams, William B. Duggan, James Bradford, Noah Cummings and Adam Curtis, Esq."

Principals.

Asa Wellington, 1852 to 1857.

I. N. Beal, 1857.

S. A. Duncan, 1858 to 1860.

John Davis, 1860.

Granville B. Putnam, 1861 to 1864.

Edward W. Howe, 1864.

Alfred B. Adams, 1865.

Charles B. Travis, 1865 to 1868.

Harrison A. Keith, 1868 to 1890.

Herbert W. Lull, 1890 to 1892.

Irving W. Horne, 1892.

Frederic Allison Tupper, 1892 to date.

ASSISTANTS.

Miss C. R. Burgess, 1855.

Miss M. N. Dow.

Cora A. Chapin.

Annie L. Arnold.

the Superintendent of Schools.

THE ASSOCIATION OF THE ALUMNI OF THE QUINCY HIGH SCHOOL.

President,—Hon. Charles H. Porter, '57.

Vice Presidents,—Mr. Frank F. Prescott, '77.

Dr. Joseph M. Sheahan, '66.

Miss Mabel E. Adams, '82.

Secretary. — Mr. Howard W. Battison, '85.

Treasurer. — Mr. George W. Holden, '88.

Directors :—Miss Eliza C. Sheahan, '64.

Miss Clara E. Thompson, '86.

Miss Dorcas C. Higgins, '79.

Miss Elisa S. Dinnie, '84.

Object: To promote the usefulness of the Quincy High School, to furnish opportunity for friendly intercourse among its Alumni, and to create and preserve harmonious relations between the school and the community in which it is placed.

Members: All those who hold diplomas of graduation; all those persons who previous to the first annual distribution of diplomas had completed a full course of study in the Quincy High School and who can produce evidence thereof.

Honorary Members: Superintendents of Schools and all persons who are and who have been teachers in the Quincy High School. Other Honorary Members may be elected by a ballot.

The date of reunion is not fixed for each year but this year, will be held on the 31st of December.

THE QUINCY TEACHERS' ASSOCIATION.

Charles F. Merrick, Willard, President.
 Robert S. Atkins, John Hancock, Vice-President.
 Howard G. Kingman, Wollaston, Secretary and Treasurer.
 Frederic A. Tupper, High.
 Williamina Birse, Adams.
 Catherine M. McGinley, Coddington.
 Mary C. Parker, John Hancock.
 Alice M. M. Richards, Lincoln.
 J. Q. Litchfield, Quincy, Chairman.
 Thomas B. Pollard, Washington.
 Ellen B. Fegan, Willard.
 Clara E. C. Thayer, Wollaston.
 Carrie E. Small, Woodward Institute.
 John O. Hall, jr., Adams Academy.

Executive Committee.

"The object of the "Quincy Teachers' Association is mutual improvement."

The four working meetings have been assigned to special members of the executive committee and they will be devoted to a study of the following educators :

Pestalozzi : Mr. Pollard.
 Miss Small.
 Miss Fegan.

Fræbel : Mr. Tupper.
 Miss Thayer.
 Miss Richards.

Dr. Arnold : Mr. Hall.
 Miss Parker.
 Miss Birse.

Horace Mann : Mr. Litchfield.
 Miss McGinley.

A social meeting began and another will close the season's work.
